INDESIT company

Model type:
PC640XHAT

Commercial code:
F083741

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

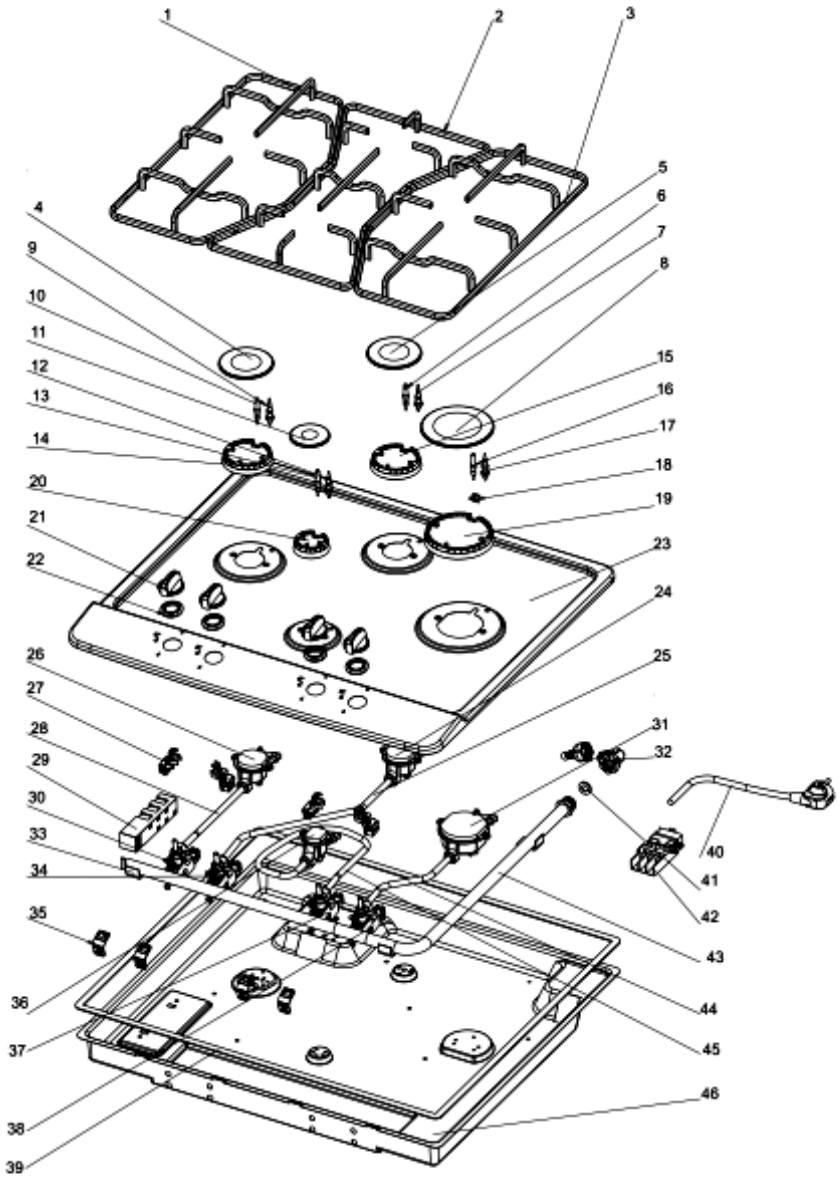

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

IFC_04 Exploded views

IFC_04 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00301207				pan stand right + left		
002	C00301206				hob pan support (middle)		
003	C00301207				pan stand right + left		
004	C00301150				burner cap semi rapide (medium)		
005	C00301150				burner cap semi rapide (medium)		
006	C00301169				electrode l=600		
007	C00301183				thermocouple l=600		
008	C00301149				burner cap large		
009	C00301183				thermocouple l=600		
010	C00301169				electrode l=600		
011	C00301153				burner cap auxiliary (small)		
013	C00301168				electrode l=320		
014	C00301173				burner ring - medium		
015	C00301173				burner ring - medium		
016	C00301169				electrode l=600		
017	C00301183				thermocouple l=600		
018	C00301144				clips of electrode		
019	C00301174				burner ring/flame splitter - large		
020	C00301175				burner base/flame splitter - small		
021	C00301210				gas knob		
022	C00301161				knob gasket		
023	C00301203				working table		
024	C00301216				injector of semi-rapid burner cup		
025	C00301205				pipe gas		
026	C00301216				injector of semi-rapid burner cup		
027	C00301208				hob microswicth for safety gas		
028	C00301205				pipe gas		
029	C00301160				4 outlet lgniter		
030	C00301171				gas valve with safety 0,60 ng		
031	C00301217				injector of rapid burner cup		
032	C00301159				elbow connection		
033	C00301214				gas rail		
034	C00301171				gas valve with safety 0,60 ng		
035	C00301212				gas valve clamp		
036	C00301215				injector of aux. burner cup
