INDESIT company

Model type:

HBI90.EF/HA

Commercial code:

F065303

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

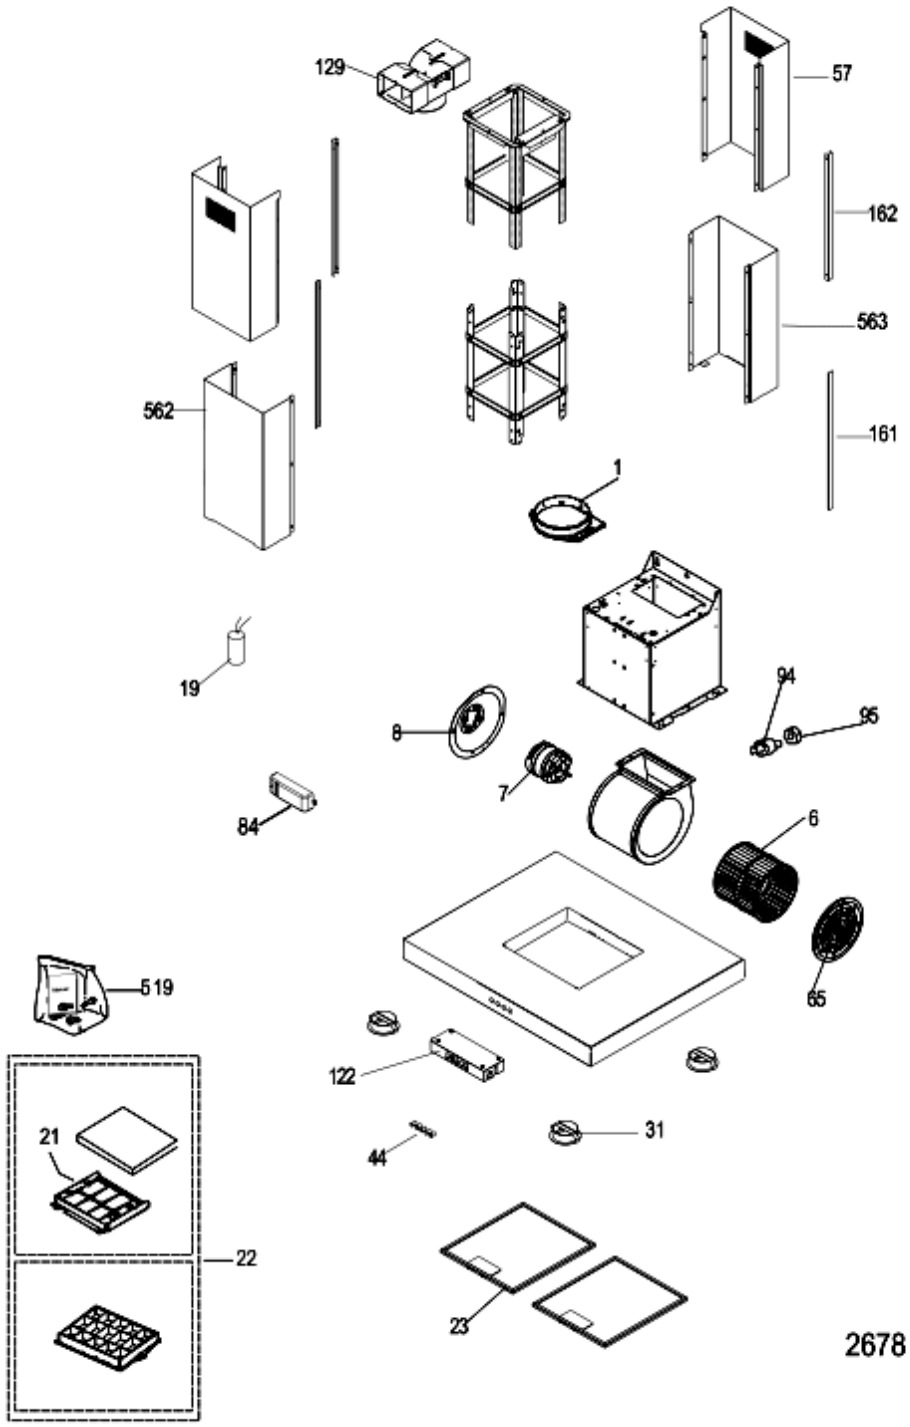

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

2678 Exploded views

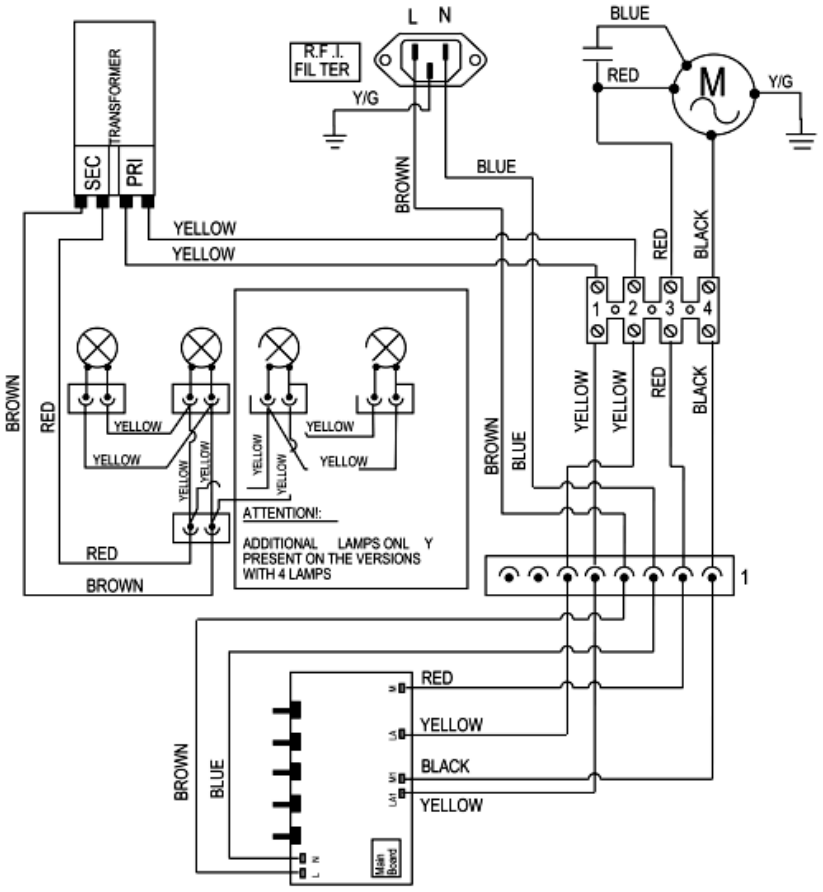

2678 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00276927			1 x C00296517	drain coupling		
006	C00090119				motor propeller		
007	C00273127				motor		
008	C00134810				support motor		
019	C00126362				condenser		
022	C00109899			1 x C00265505	carbon filter mod.15 f00333/s		
023	C00136541			1 x C00280008	grease filter		
031	C00138617			1 x C00242926	complete halogen lamp		
044	C00140645				button chrome		
057	C00267430				chimney upper inox		
065	C00138717				suction compressor		
084	C00264365				transformer		
094	C00126788				motor mounting		
095	C00130881				self-locking nut		
122	C00274857				control bracket		
129	C00112137				filtering connection		
161	C00267429				profile chimney lower		
162	C00267431				profile chimney upper		
519	C00274858				installation kit		
562	C00267436				back chimney front		
563	C00109886				back chimney lower
