INDESIT company

Model type:

R45GR

Commercial code:

F029853

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

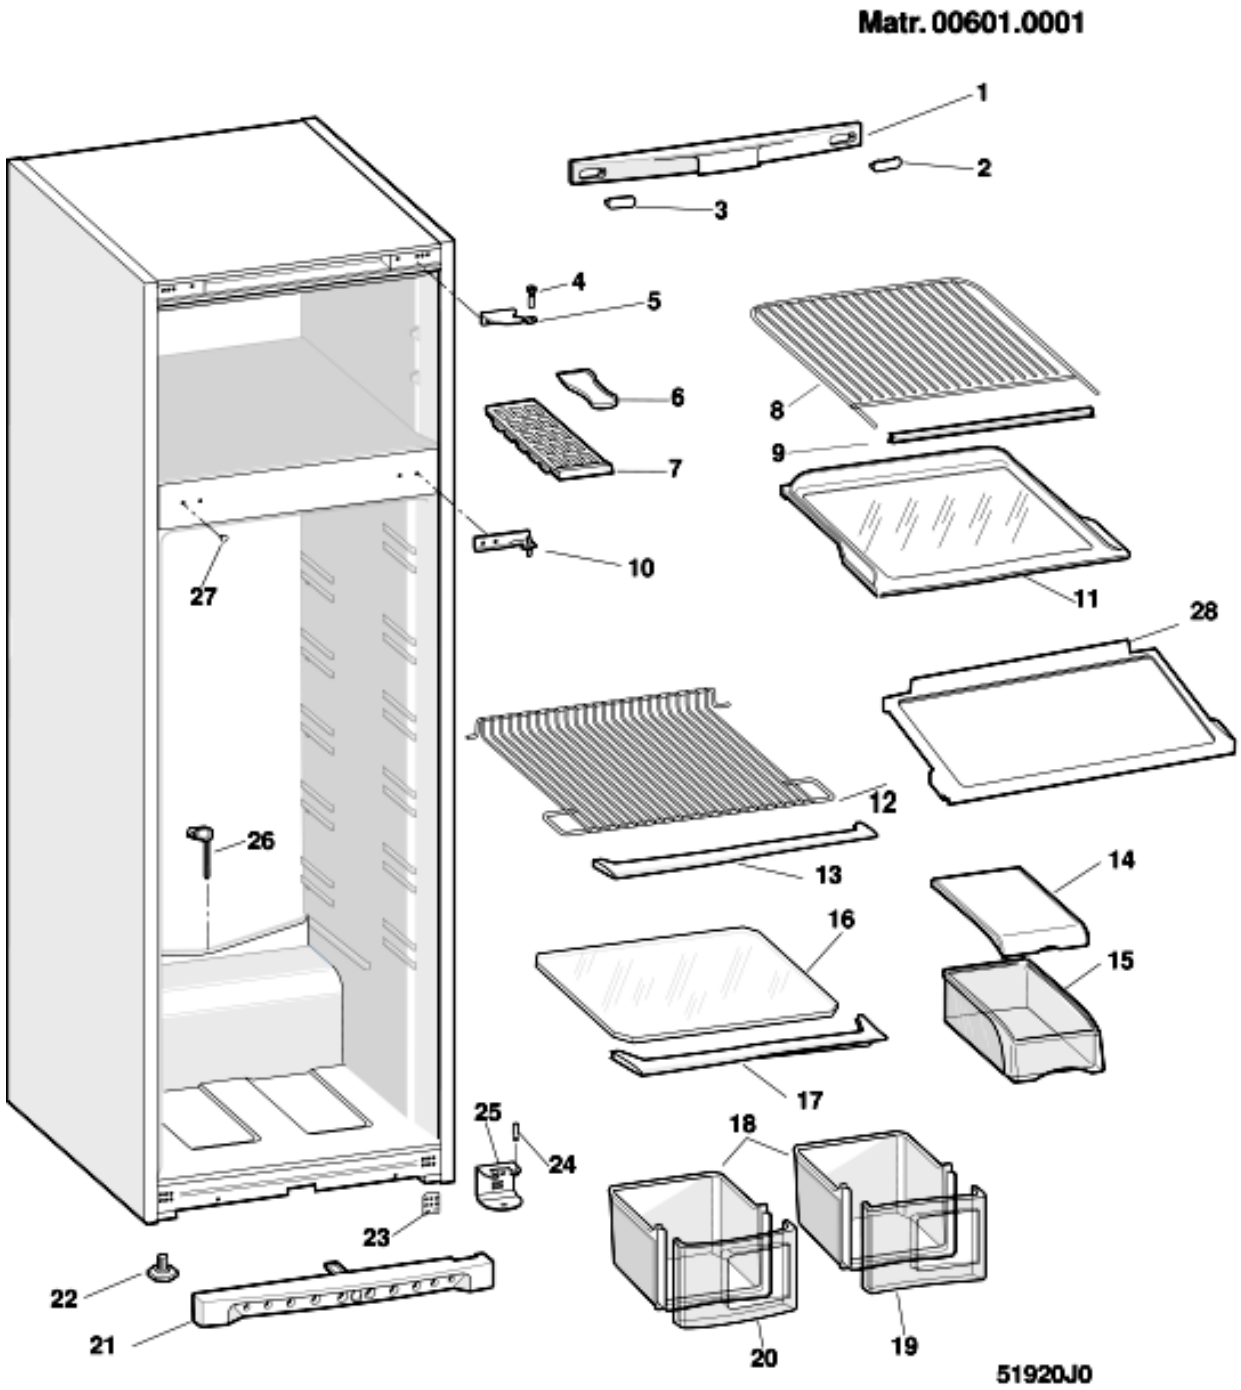

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

0999327: HIDDEN BULB

Since 16/09/02 hidden bulb thermostat 064428 will be used on R45, R45UK, R45SUK, R45FR models.

0999329: NEW THERMOSTAT BOX

Since 07/04/2003 thermostat box has been changed due to the standardization. New parts can be used on premodified appliances on below models;
New parts;
R45S-R45SUK-R45UK-R45FR-RA45FR-RA47-RA47S-R45UK-RA47NL
93674- wiring harness (thermostat box)
94753- thermostat box
91088- lamp socket nova
94754- light diflection folio (58*60*0.1)

0999349: static condenser

Since 30/09/2003 static condenser has been used on R45GR (29853) models.
New parts;
89661- condenser
89676- compressor basement

0999357: plastic compressor basement

Plastic compressor basement will be used on refrigerators since this reason adjutable foot and except single door bottom hinge have been changed. New hinge will be managed with a new code. The new bottom hinge can be used on both left and right sides.

New adjustable foot;
89682- white
89686- black

New bottom hinge assembley with adjustable foot;
110081- white
110522 - black

n2510b00: SUBSTITUTION RUBBER BUFFER FOR COMPRESSOR

Since month of February 2010 has been substitute in assistance the rubber buffer for compressor C00089673 with the C00109592.
Substitution is not valid for the products which use JIAXIPERA compressors respectively differentiate for type, Single Door (SD) / Double Door (DD) or different:

SD/DD C00089673 --> C00277320
NOT SD/DD C00089673 --> C00032453
