INDESIT company

Model type:
HF9FIX/HA

Commercial code:
F055087

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

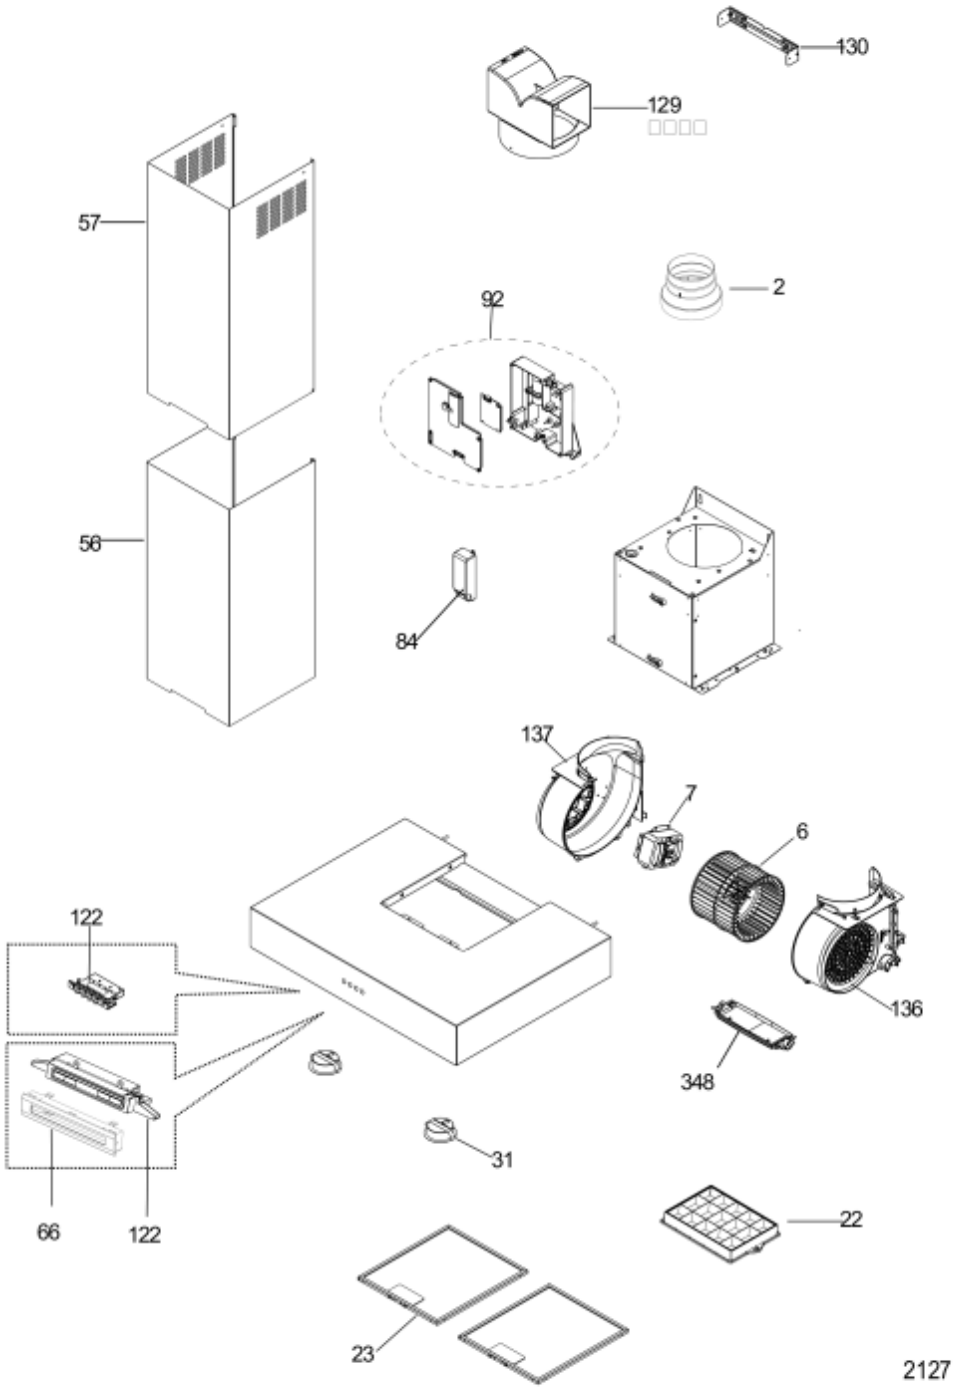

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

2127 Exploded views

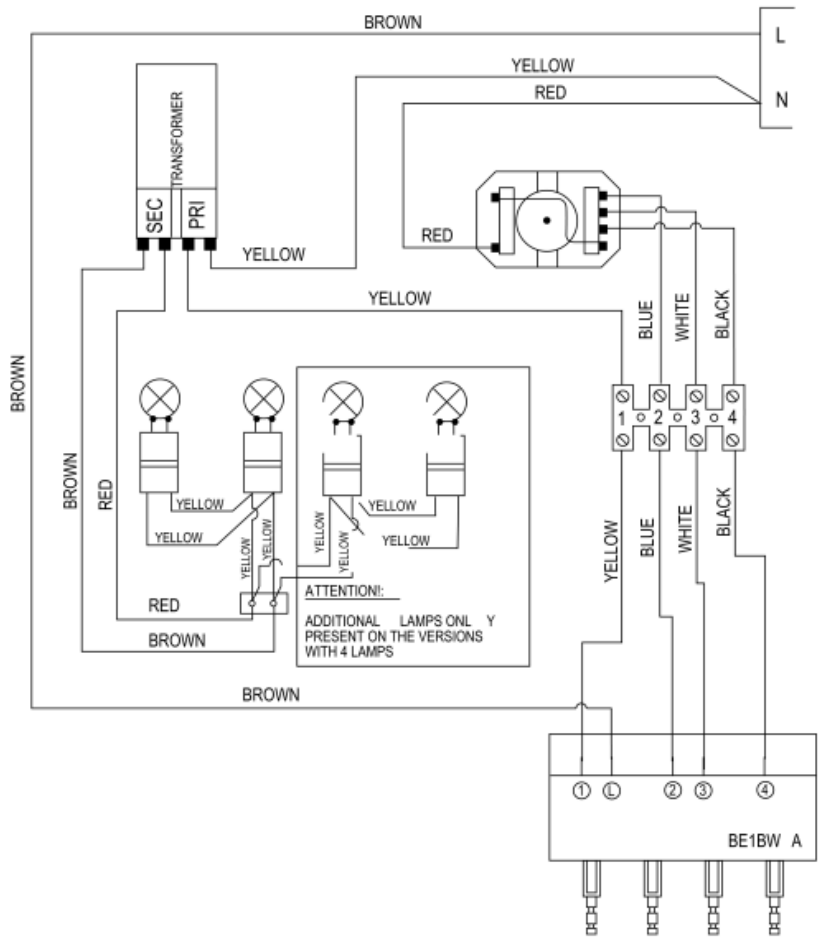

2127 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
000	C00267618				user instructions booklet		
002	C00137578			1 x C00242863	pipe reduction (ix) 150/120mm		
006	C00262221				motor propeller		
007	C00262222				motor		
022	C00109899			1 x C00265505	carbon filter mod.15 f00333/s		
023	C00136541			1 x C00280008	grease filter		
031	C00138617			1 x C00242926	complete halogen lamp		
056	C00257244			1 x C00257451	chimney lower		
057	C00117218				chimney upper		
084	C00264365				transformer		
092	C00267428				electronic box only		
122	C00267615				control bracket		
129	C00091129			1 x C00273130	deflector tube		
130	C00119489				hanger		
136	C00255762				conveyor right missy		
137	C00255768				conveyor left missy		
348	C00255750				box cover		
999	C00279243				fixing assembly
