INDESIT company

Model type:
AH61CMXHA

Commercial code:
F084005

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

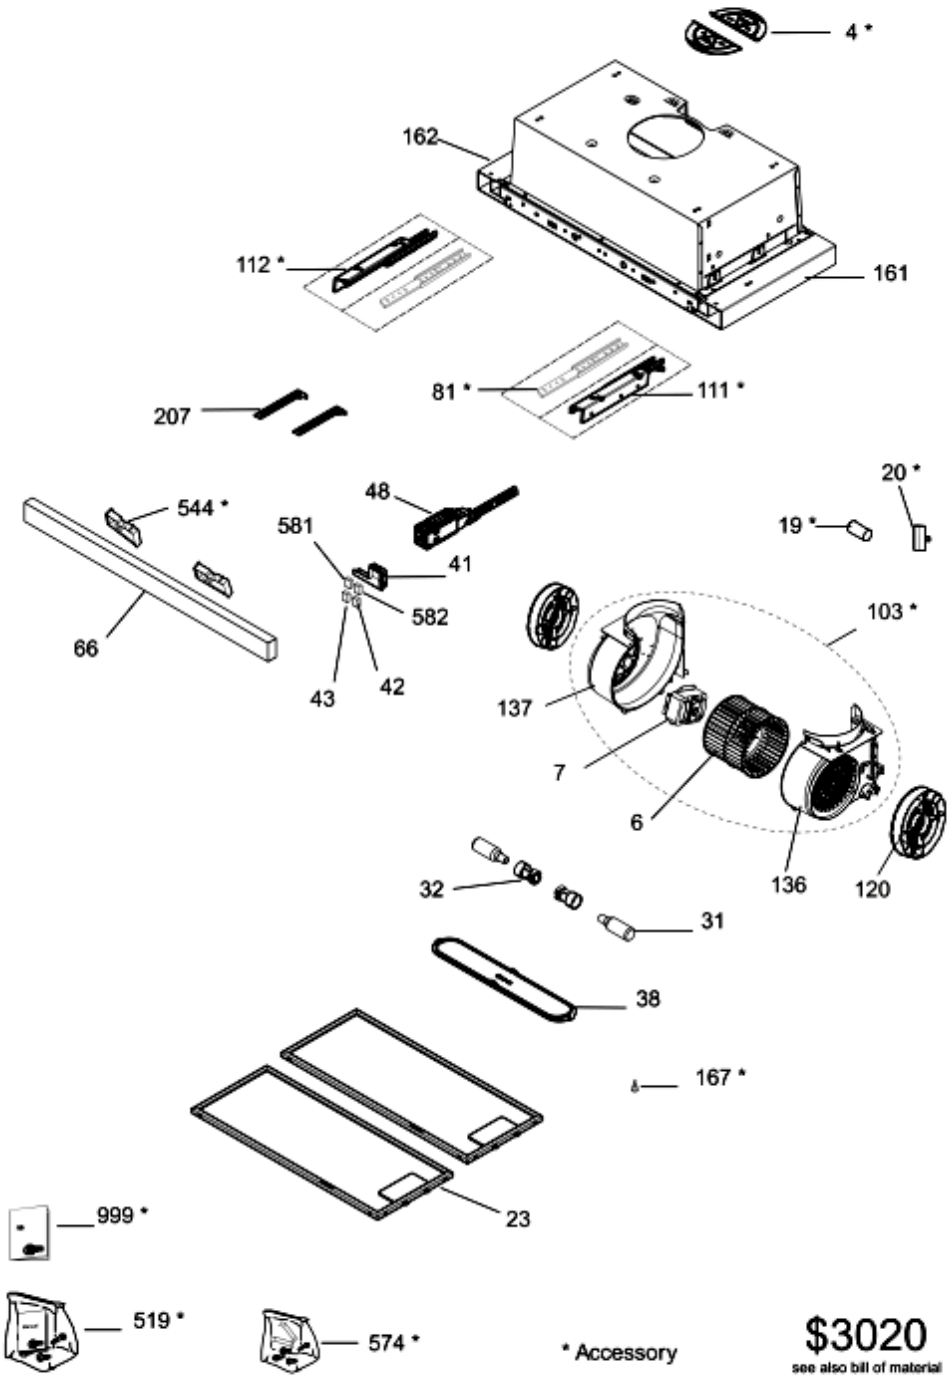

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

\$3020 Exploded views

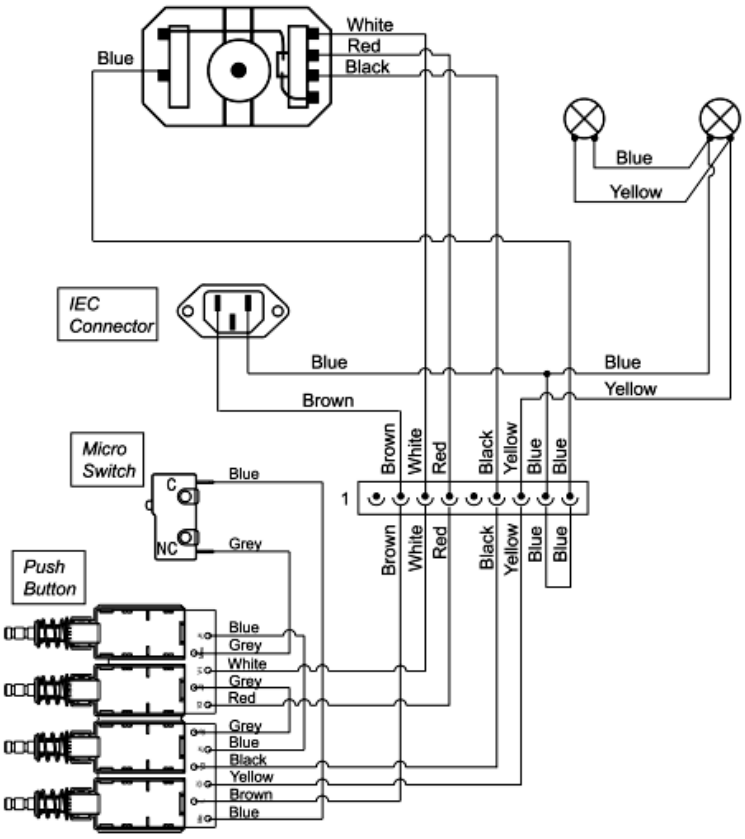

$3020 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
004	C00302774				valve		
006	C00302801				fan wheel counterclockwise		
007	C00302786				motor counterclockwise rotation		
019	C00302795				capacitor		
020	C00301319				noise filter		
023	C00302770				grease filter		
031	C00292492				lamp 28w halogen candle		
032	C00139626			1 x C00242499	lamp bushing		
038	C00302089				lamp cover		
041	C00302073				control panel		
042	C00302076				light key		
043	C00302078				motor key		
048	C00302766				circuit board		
066	C00307329			1 x C00256138	front part inox 60 h/a		
081	C00112164				slide		
120	C00302772			1 x C00308179	carbon filter		
136	C00302769				right half conveyor		
137	C00302803				left half conveyor		
161	C00302074				external profile right		
162	C00302072				left outside mould		
207	C00118846				bracket		
581	C00302087				speed 2 key		
582	C00302086				speed 3 key		
999	C00286708				supply cable
