INDESIT company

Model type:

DV320MSIX/HA

Commercial code:

F050120

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

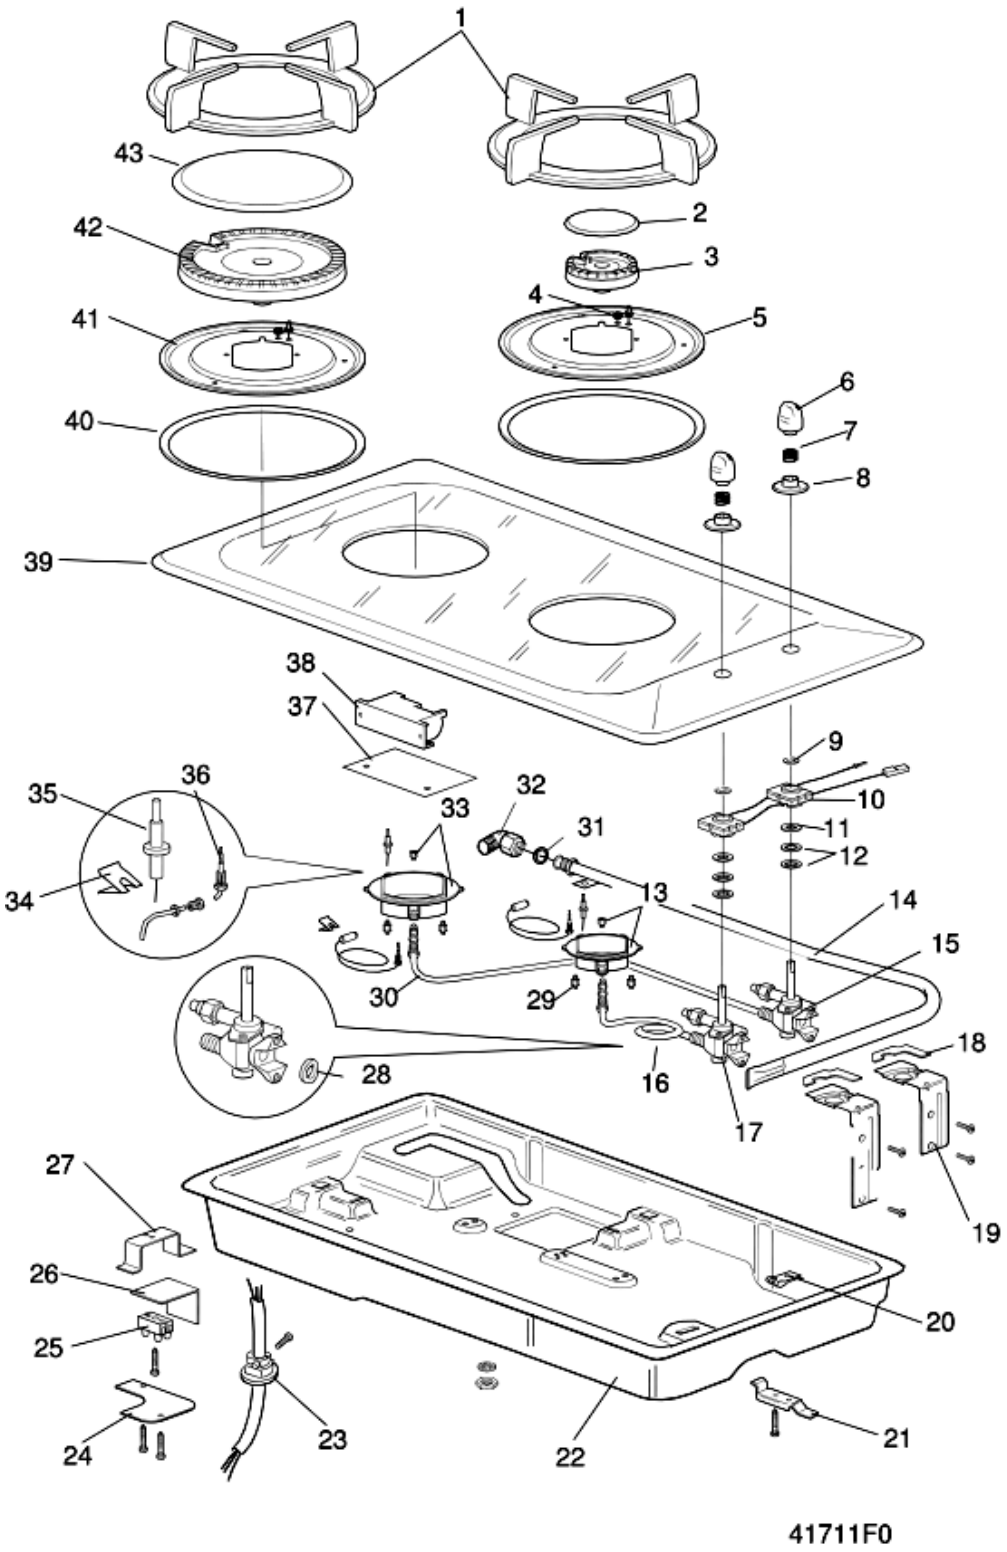

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

41711f0 Exploded views

41711f0 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
000	C00081685				user instruction book-i-de-es-fr-nl-		
001	C00081789				burner grid (1 burner) - black		
002	C00052933				burner cap auxiliary (small) black		
003	C00052930				burner base/flame splitter - small		
004	C00081738				impellor thermocouple		
005	C00081790				burner support auxiliary sic.		
006	C00008505				retention plate 12x8x2		
006	C00053219				knob (gas tap/switch) - black		
007	C00039156				knob disc - spring		
008	C00053220				knob disc black		
009	C00081741				compression ring		
010	C00081765				microswitch 2f.		
011	C00045232				surround - ignition button		
012	C00081740				spacer		
013	C00052927				burner cup - small burner		
014	C00081757				pipe - tap 2f.		
015	C00081756				burner tap by-pass 40/100		
016	C00081811				connection pipe		
017	C00081758				burner tap by-pass 30/100		
018	C00081766				barrier		
019	C00081732				bracket - supply gas pipe		
020	C00045235				spring nut		
021	C00057251				plate clamp hobs		
022	C00081810				base cover tray		
023	C00045245				cable clamp - mains cable (black)		
024	C00076427				terminal board cover		
025	C00045248				terminal block (2 pole)		
026	C00076428				fixing base terminal board electro		
027	C00076429				terminal board support		
028	C00045282				gasket for nozzle with valve		
029	C00081813				spacer		
030	C00081812				connection pipe		
031	C00057243				sealing washer-gas elbow/pipe		
032	C00057210				gas pipe elbow 1/2" gas		
033	C00052925				burner cup - large burner
