INDESIT company

Model type:

MHR940.1(AN)/HA

Commercial code:

F070603

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

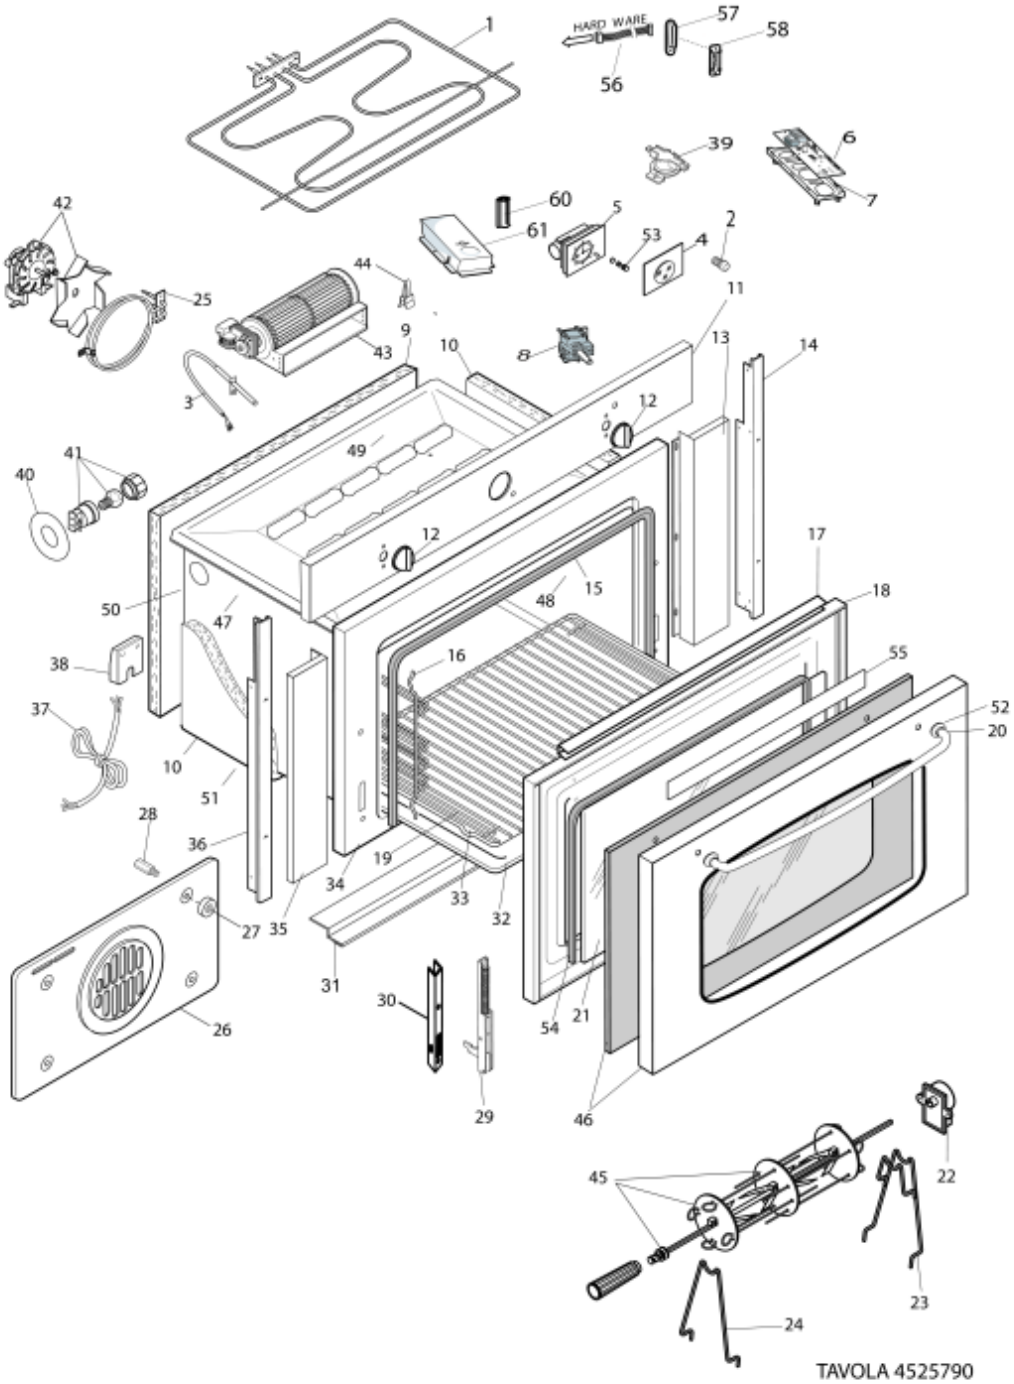

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

4525790 Exploded views

4525790 Spare parts list

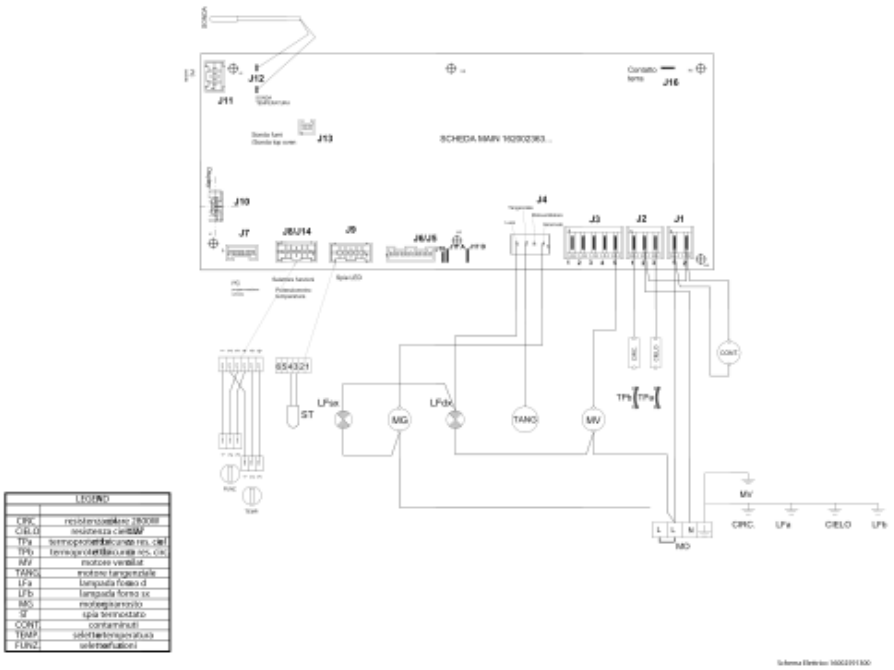

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00266048				heating element up grill		
002	C00074135				neon lens clear		
003	C00138851				probe		
004	C00276839				dial glass- timer for rustic oven		
005	C00275203				timer 230v 50hz coupatan		
006	C00272306				smart reader for card 8kb 32kb +		
006	C00275985				power board hot2005		
006	C00283452				card 8kb hot2005 sw		
007	C00142024				bracket for main board hot2005		
008	C00142020				potentiometer 10 pos. hot2005		
008	C00142022				potentiometer (temperature) white		
009	C00279775				oven insulation mat - rear		
009	C00279776				oven insulation mat - rear		
010	C00279779				lagging wrap main		
011	C00280041				dashboard mhr940.1(an)/ha		
012	C00111471				rustic knob an/brownish		
013	C00085587				lateral panel		
014	C00085589				side frame rh - an		
015	C00091946				oven door seal		
016	C00066389				side shelf		
017	C00196047				support pannello		
018	C00143724				inner door		
019	C00110222				oven grid shelf		
020	C00260605				screw m5x14 tcb brun		
020	C00280050				oven door handle		
021	C00143726				inner glass		
022	C00141179				motor -rotisserie		
023	C00049974				rotisserie support
