INDESIT company

Model type:

PZF950TGHN/HA

Commercial code:

F065954

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

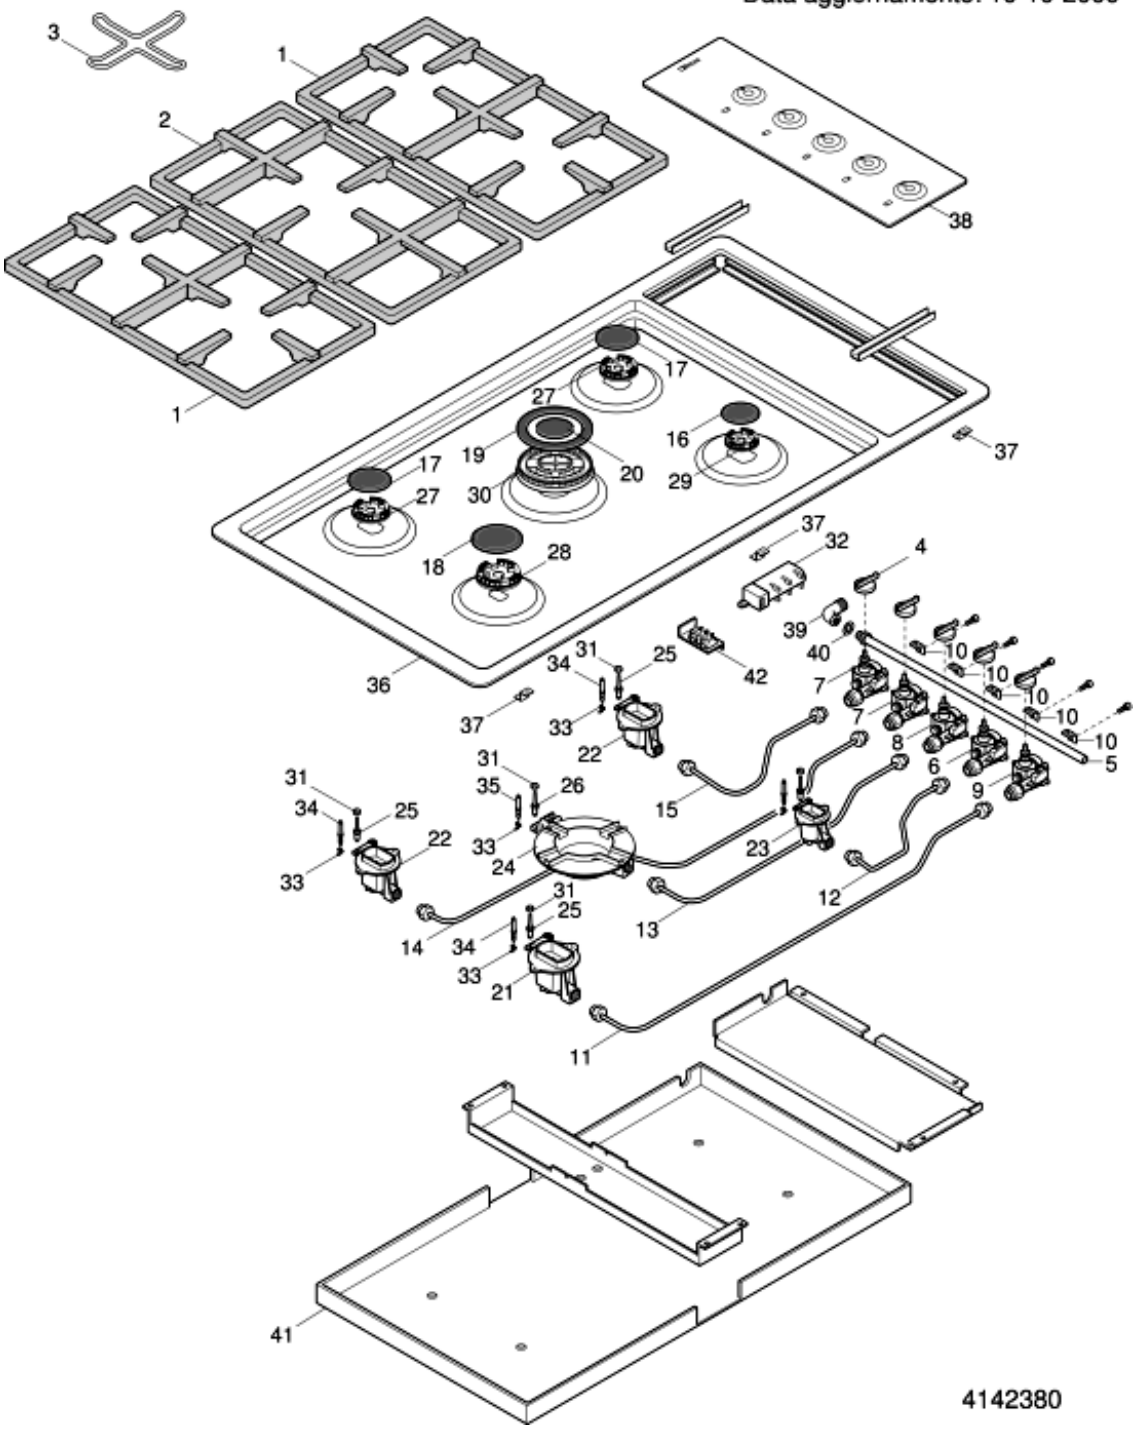

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

4142380 Exploded views

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00090256				grid for 2 burners		
002	C00090257				1 burner grid star		
004	C00274579				knob pz6-7 nickel opac		
005	C00076827				pipe - tap 5f.		
006	C00076828				oven thermostat with valve		
007	C00076829				thermostat with valve semirapido		
008	C00076830				tap with valve tripla corona		
009	C00076831				oven thermostat with fast valve		
010	C00044592				tap fixing plate		
011	C00076832				front left burner supply pipe		
013	C00076834				pipe burner t.c.		
014	C00076835				semi-rapid burner supply pipe		
015	C00076836				right medium burner feed pipe		
016	C00064918				burner cap auxiliary black semi		
017	C00064919				burner cap - semirapide black		
018	C00064920				burner cap rapide black		
019	C00064921				burner cap outer tc black semi		
020	C00064922				burner cap centre tc black semi		
021	C00052925				burner cup - large burner		
022	C00052926				burner cup - medium burner		
023	C00052927				burner cup - small burner		
024	C00053254				burner cup - triple burner		
025	C00074279				thermocouple		
025	C00118496			1 x C00052951	electrode l=520		
026	C00096748				thermocouple - tc bifilare l=600		
027	C00052929				burner ring - medium		
028	C00052928				burner ring/flame splitter - large		
029	C00052930				burner base/flame splitter - small		
030	C00053173				burner base/flame splitter - triple		
031	C00093834				screw nut m6		
032	C00031720				6 points igniter + filter		
033	C00052934				electrode clip		
035	C00075911				electrode -triple burner l=500		
036	C00275449				working table pzf950tghn/ha		
038	C00275450				rolled panel pzf950
