Notices

n4011c00: Counterweight screws

Use code C00194612 (screw with larger diameter) in case of fixing counterweight on the original plastic tub of the machine

Use code C00194611 in case of fixing counterweight on a new plastic tub used as spare part

NOTE:
When /if replacing the Plastic outer drum assembly ensure the correct counterweight screws are used.

n4017f01: NEW GLOBAL WHITE INTRODUCED ..

Starting from April 2017 on the productions of Fabric Care factories of Comunanza, Manisa, Radomsko and Lipetsk a new WHITE called “Global White” has been introduced, replacing the previous one Polar White.
All the new Global White products maintained the same commercial code, even though the industrial code will be modified inserting in the last two digits ==> “97”, as the following example:

IWD61052CECOPL ==> F089961
30899610000 = Polar White
30899610097 (o later) = Global White

The new Global White components (all identified with “GW” in each description), due to a big difference of colour between Polar and Global, are not aesthetically interchangeable with the previous Polar White.
The Polar White spare parts will continue to be managed by Spare Part Center Warehouse for a limited time period.

When the stock of Polar White ends, the direct substitution with Global White will be managed.

n4021e09: NEW ECOTIME DISPENSER ASSEMBLY INTRODUCED

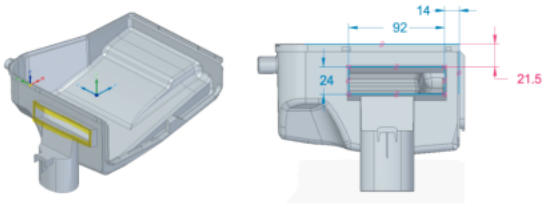

A new ECOTIME dispenser assembly 370 1V BKS has been introduced (spare part code C00728282).

IN ==> C00728282 ECOTIME DISPENSER ASM 370 1V BKS, backsiphonage compliant
OUT ==> C00378454 ECOTIME DISPENSER ASM 370 1V

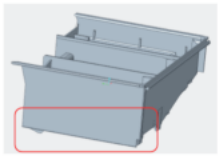

New code C00728282 can be used in place of the old C00378454, but not vice versa.

More details in the picture attached.

Dispenser housing backsiphonage compliant (ECOTIME)

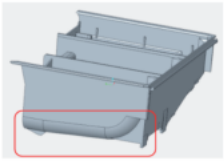

Drawer ECOTIME before backsiphonage modification

ECOTIME drawer currently in production

Drawer ECOTIME backsiphonage compliant

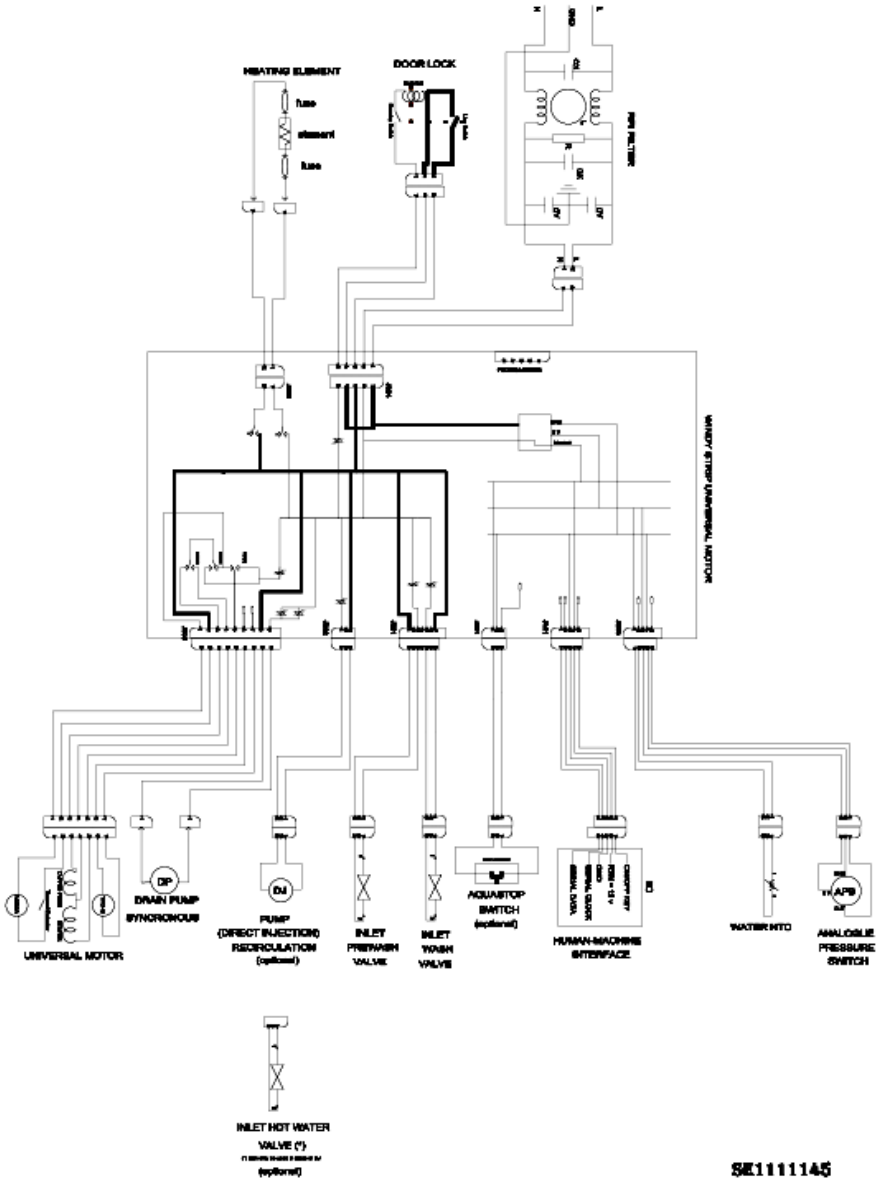

ECOTIME drawer after the modification
