INDESIT company

Model type:
A33VEX

Commercial code:
F026478

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

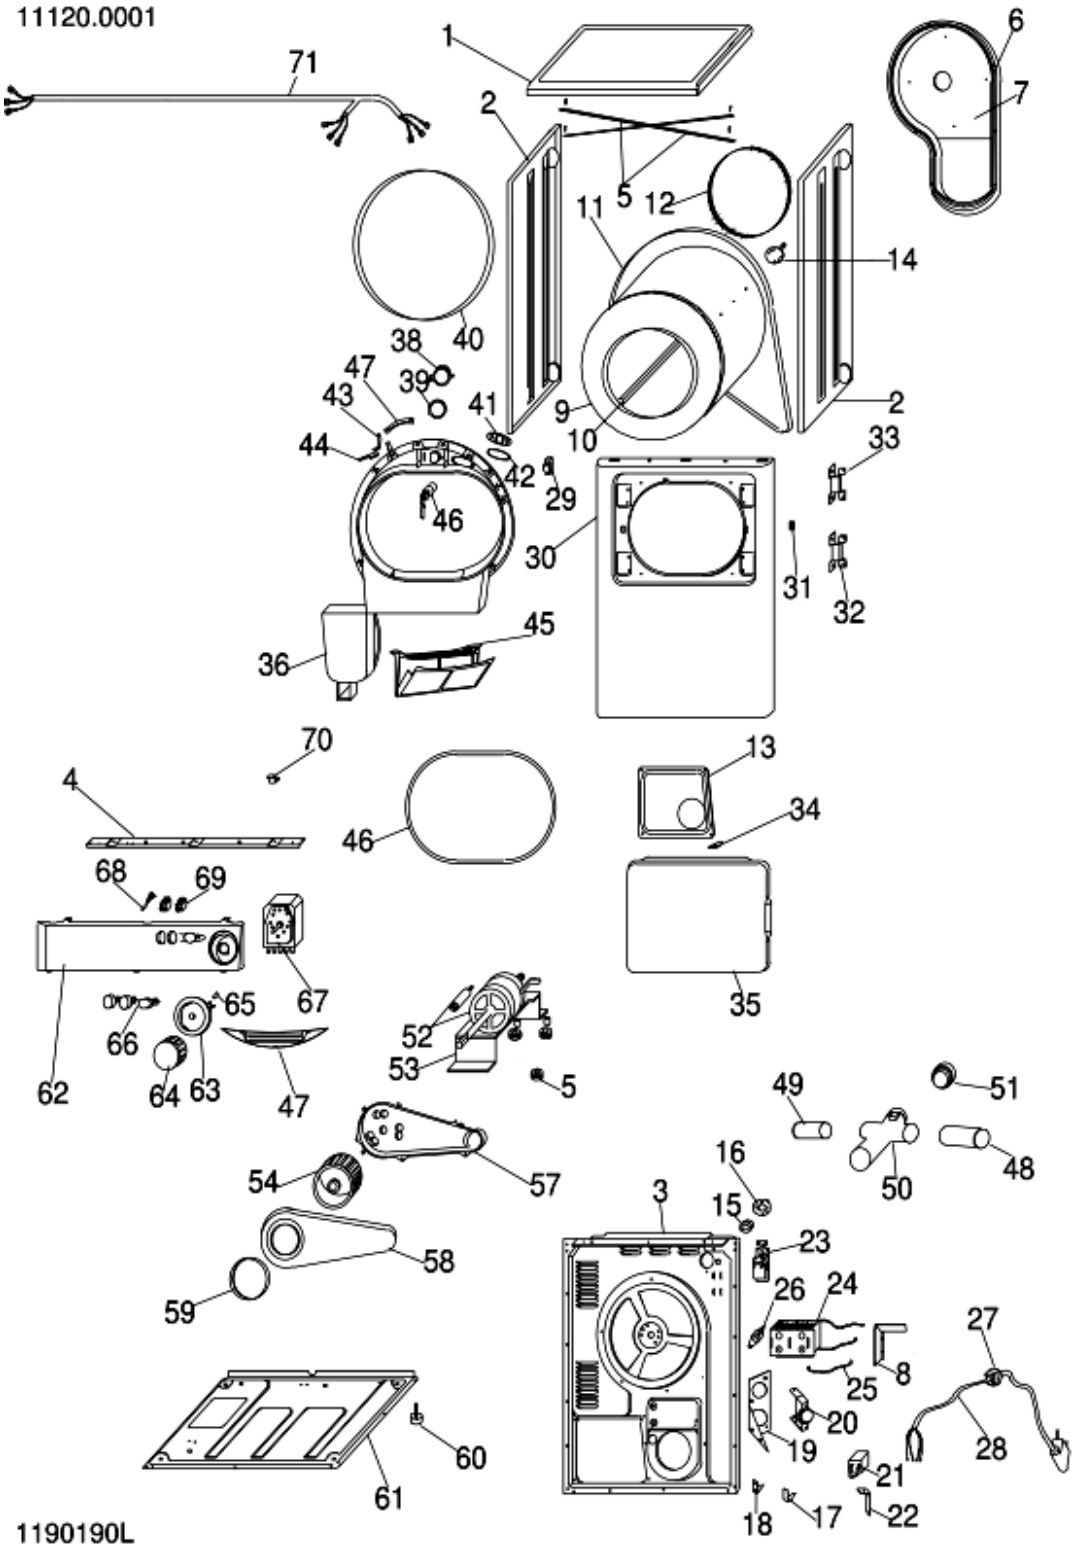

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

n1040228: Replacing the belt.

To replace the belt, perform the following instructions:
1) Check that there are no rubber residues in the motor pulley (photo 1).
2) Position the dryer on its front, remove the back panel and check that the basket opening lip is positioned correctly see photo 3 and 4.
3) Remount the belt and check that it is positioned correctly on the motor pulley (1-2 slots from the bottom), perform one complete turn of the basket by hand to stabilize the belt positioning.

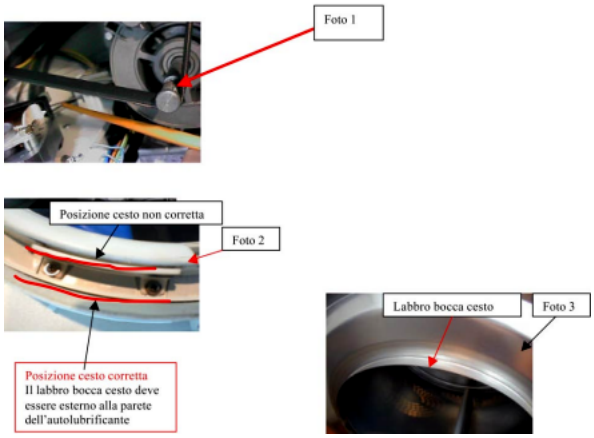

n1040294: INTRODUCTION OF THERMOSTAT AND DEFLECTOR TO IMPROVE THE DRYING PROCESS

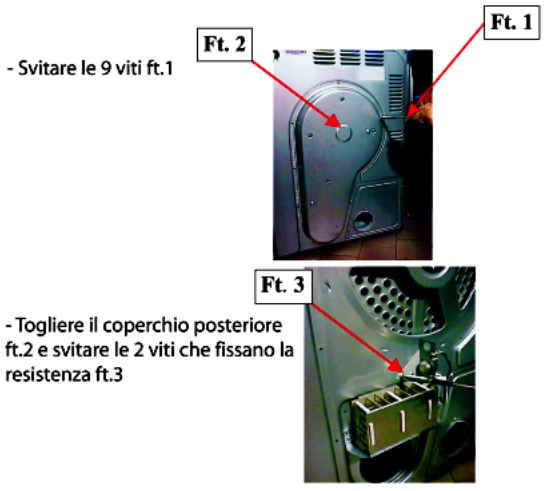

NT006800

The deflector (Sat code 094507) and thermostat (47°) (Sat code 770038) have been introduced on the Dryers with square door in place of premodification thermostat (70°) (sat code 770360), to improve the drying process.
The models affected by this modification are:
A33VEX commercial code 26478;
A33VUK commercial code 26757;
A33VEX50/60 commercial code 26479;
A33VAUS commercial code 26480;
A33VEX commercial code 26481.
Pictures N1040294FIG1 - N1040294FIG2 - N1040294FIG3 - N1040294FIG4 - N1040294FIG5 show how to assemble the items mentioned above.

MONTAGGIO DEFLETTORE CODICE SAT 094507

N1040294FIG2

MONTAGGIO DEFLETTORE CODICE SAT 094507

- Spostare il supporto termostato inserire il deflettore ft.4 e ft.5 e rimontare il tutto

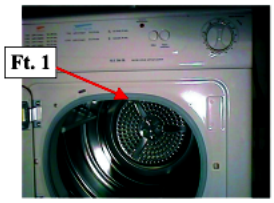

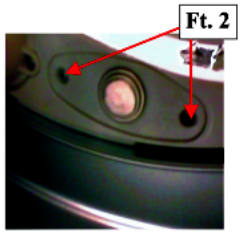

N1040294FIG3

MONTAGGIO DEL TERMOSTATO CODICE SAT 770038

-Togliere il termostaro posizionato nella parte posteriore vedi ft.1 e ft.2

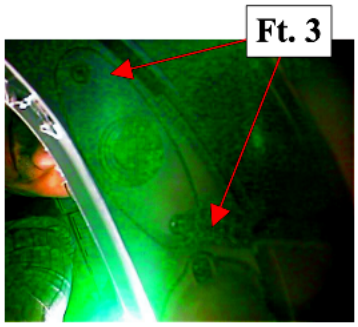

N1040294FIG4

MONTAGGIO DEL TERMOSTATO CODICE SAT 770038

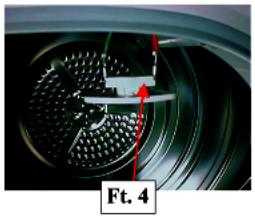

-Svitare le due viti del supporto termostato ft.3

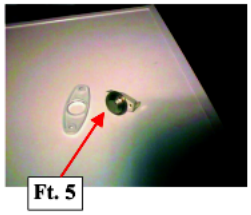

N1040294FIG5

MONTAGGIO DEL TERMOSTATO CODICE SAT 770038

-Sostituire il termostato ft.4 e ft.5 rimontare il tutto

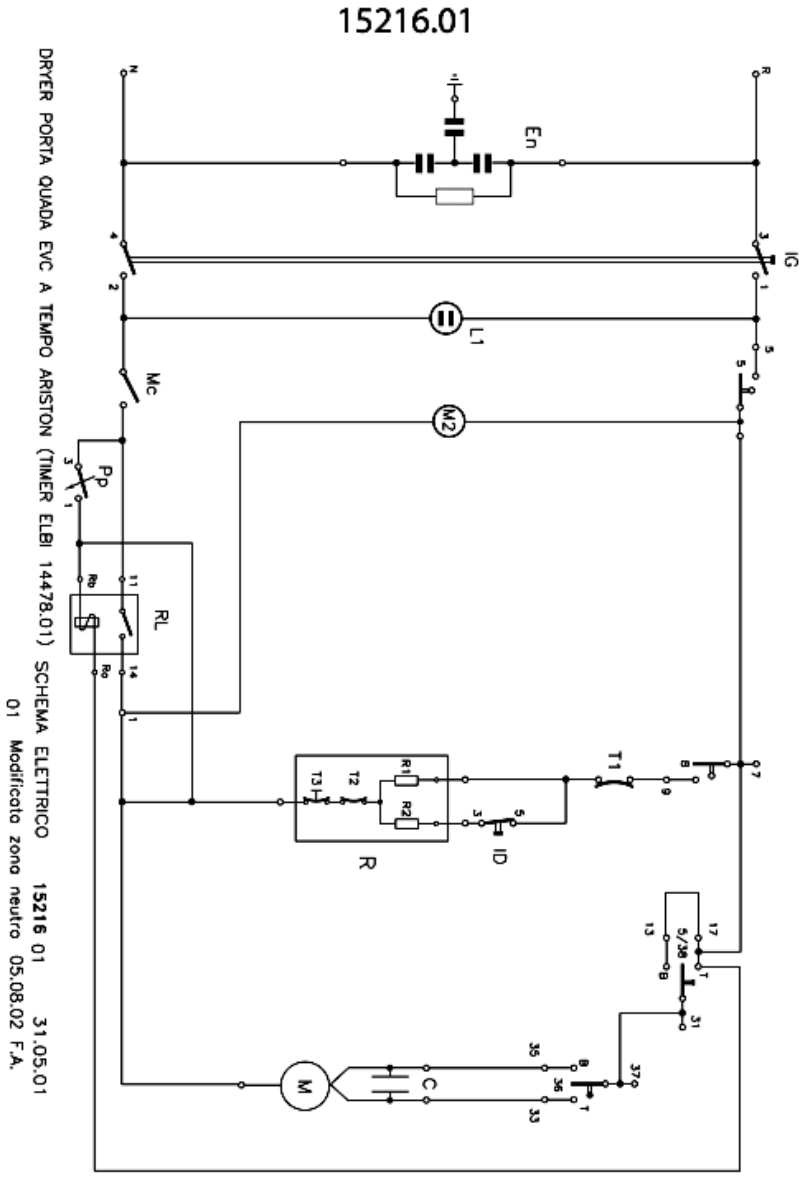

n1040302: Introduction of new timer Service code 092886 on A33V Dryers.

On the dryer models listed below:
A33VEX (commercial code 26478)

A33VEX50/60 (commercial code 26479)
A33VUK (commercial code 26757)
from serial no. (IAR) UA0133B01027 (FEBRUARY 2003), the new timer 14478.01 spare part code 092886 has replaced timer 14478 spare part code 770293.
There are two types of 14478.01 timers stocked in the Spare Part Warehouse for spare part code 092886: a "brown" type produced by ELBI and a "white" type produced by INVENSYS, which do not have the same contacts but are pin-to-pin compatible.
New and premodification diagrams are illustrated in the documentation of the various models affected.
Wiring diagram:
- New 15217.01
- Premodification CE036800
Functional chart:
- New 15216.01
- Premodification SE096000
