

Model type:
TVF751EU

Commercial code:
F068736

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

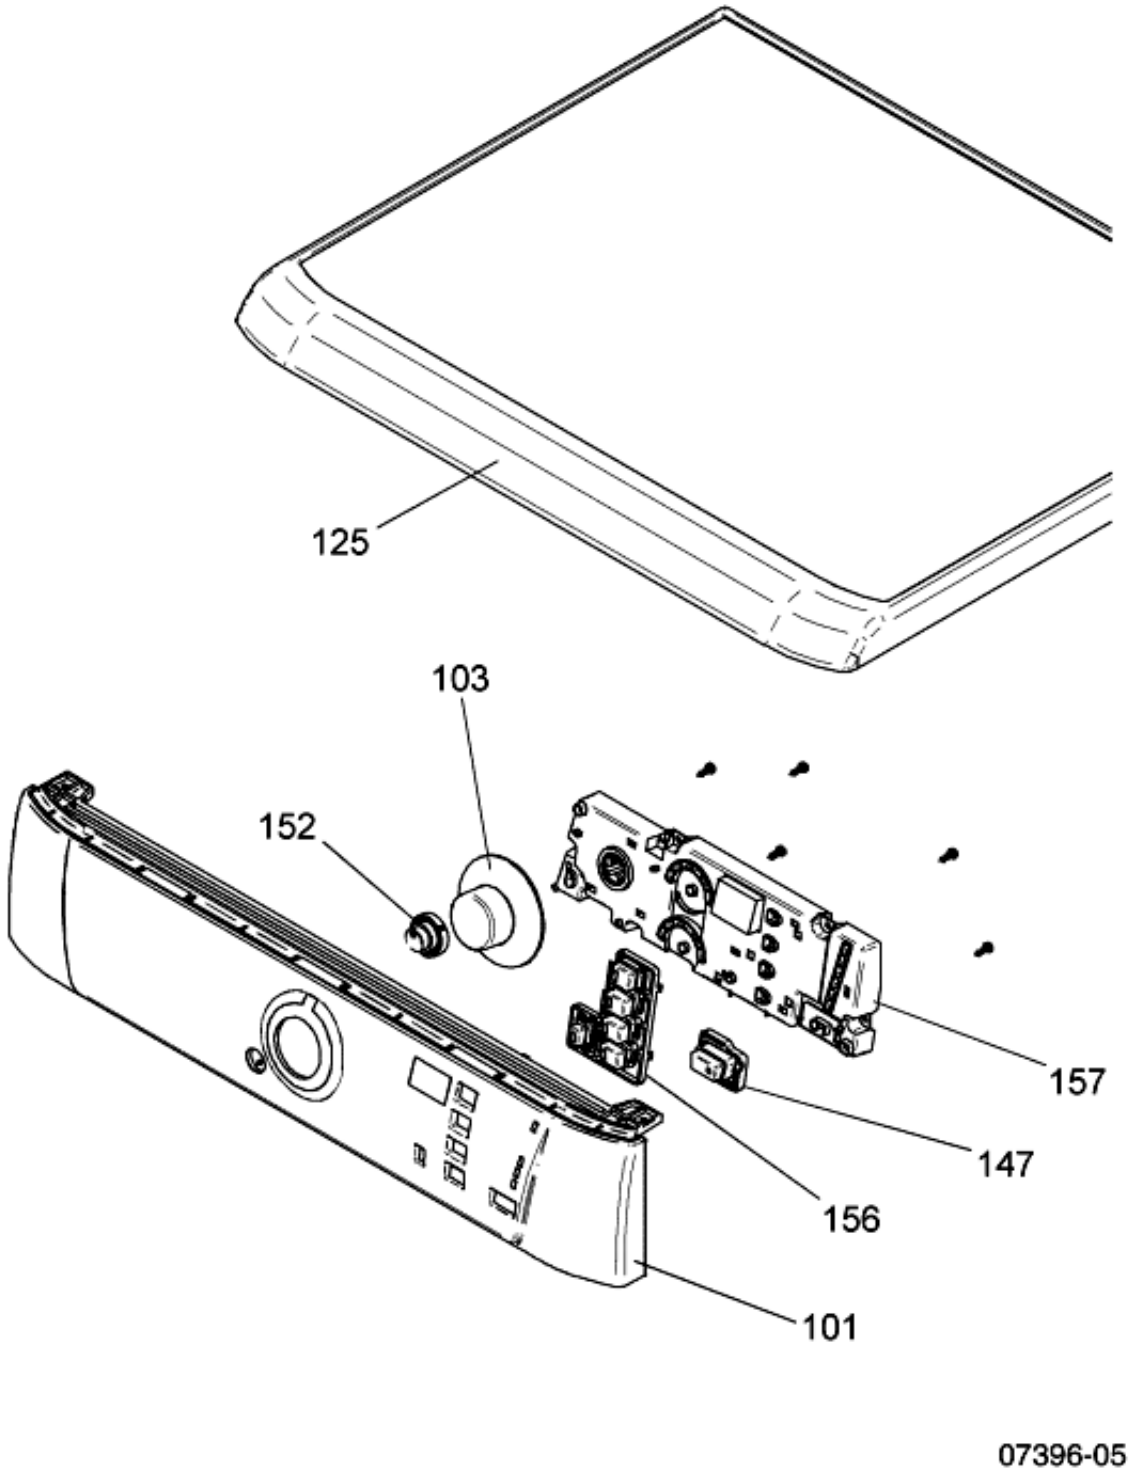

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

n4411g01: VENTED DOOR SEALS

ON SELECTED TUMBLE DRYERS FROM JUNE 2011 THE DOOR SEAL COLOUR CHANGED FROM GREY TO WHITE.
SELECTED THE CORRECT PART BY DESCRIPTION IN THE PARTS LIST

FROM MAY 2014 STOCK OF THE WHITE SEALS HAS BEEN EXHAUSTED SO ONLY GREY NOW AVAILABLE. THE WHITE SEALS HAVE BEEN SUPERSEDED AS THIS IS CONSIDERED A SUITABLE ALTERNATIVE

n4411g04: COLOUR CHANGE TO THE FILTER> VENTED DRYERS

FROM JUNE 2011 THE FLUFF FILTER FITTED TO VENTED TUMBLE DRYERS CHANGED IN PRODUCTION FROM GREY TO WHITE.
SELECTED THE CORRECT PART BY DESCRIPTION IN THE PARTS LIST

n4411g06: COLOUR CHANGE TO WHITE FRONT AIR DUCT

FROM JUNE 2011 THE FRONT AIR DUCT FITTED TO VENTED TUMBLE DRYERS CHANGED IN PRODUCTION FROM GREY TO WHITE.
SELECTED THE CORRECT PART BY DESCRIPTION IN THE PARTS LIST

n4412c01: VENTED TUMBLE DRYER DRUM LIFTER

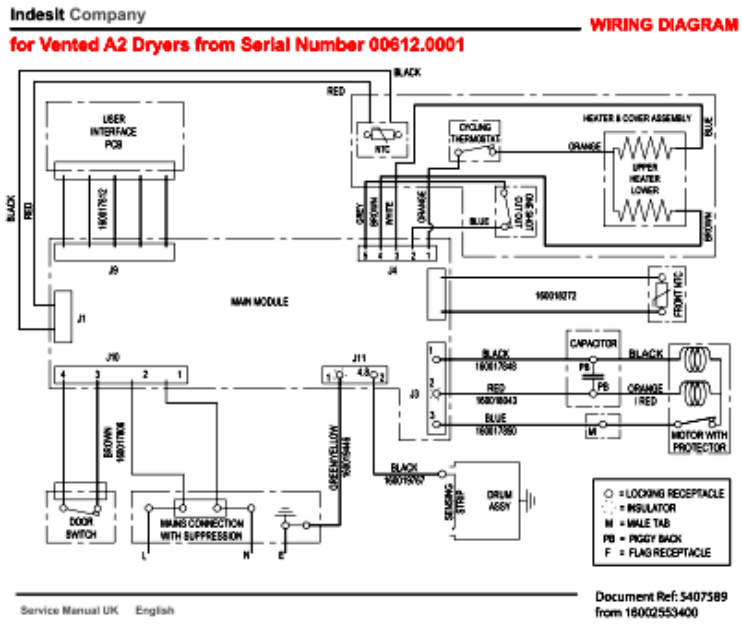

From Sept 2011, a curved drum lifter, has been used in production, the new lifter is fully interchangeable with the original straight drum lifter, once stock of the straight drum lifter is exhausted, the curved drum lifter will become the Service Spare, for all production dates".

n4414a00: BUMP STOP

From the Autumn of 2013 2 Bump Stops were added to the rear panel.
