INDESIT company

Model type:
HGF6.5AMXHA

Commercial code:
F083178

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

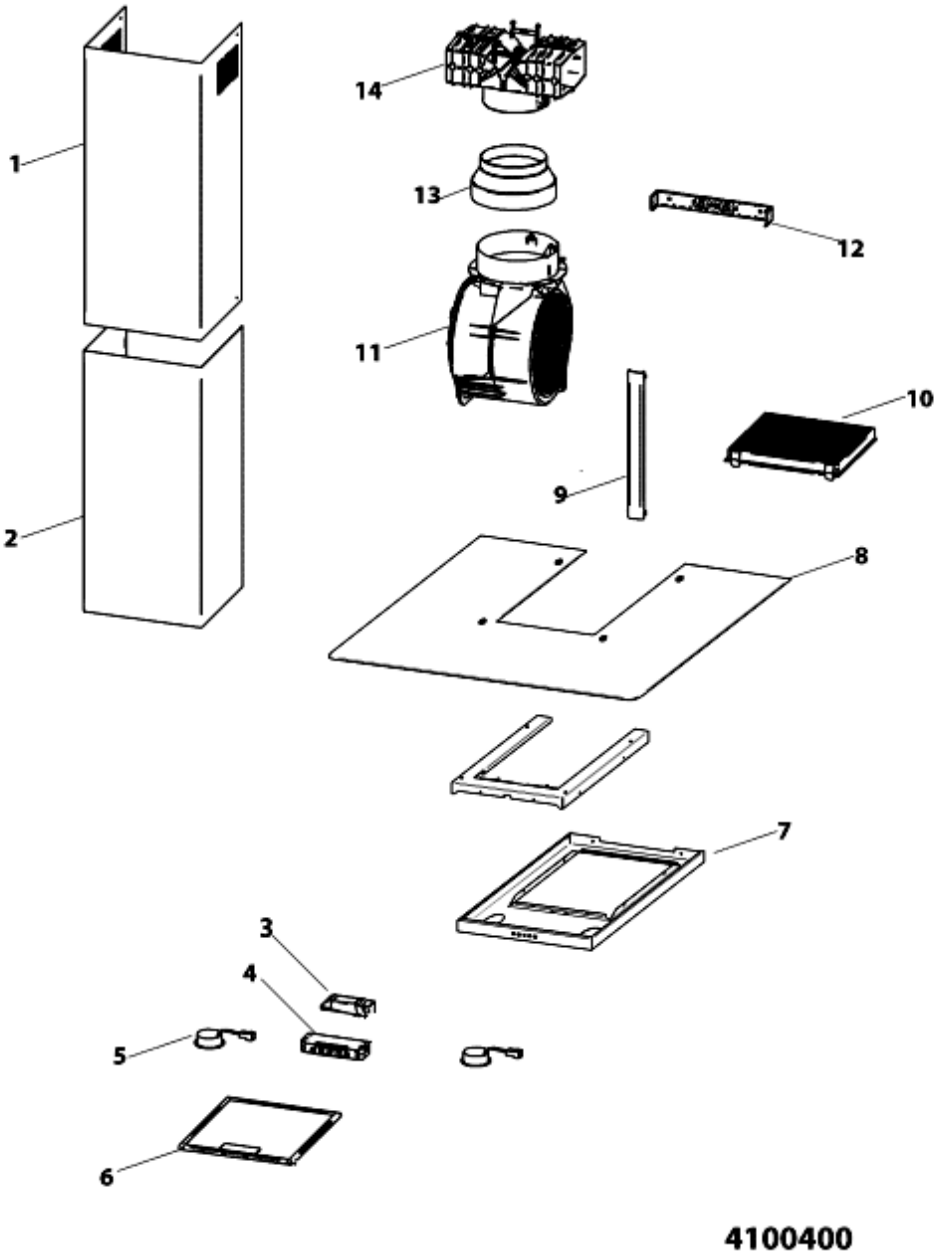

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

4100400 Exploded views

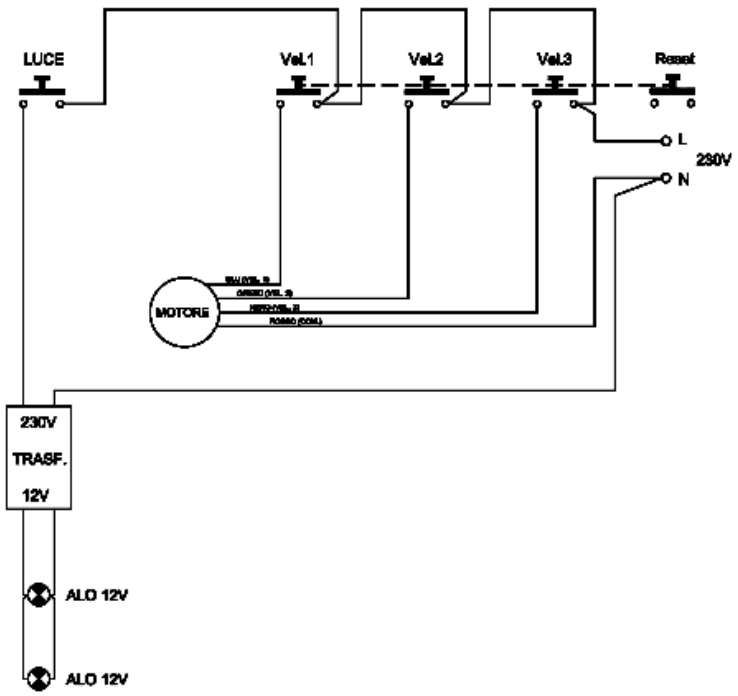

4100400 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00300641				kit chimney upper+lower t-box		
002	C00300641				kit chimney upper+lower t-box		
003	C00298185				transformer 230v ac /11.5v ac		
004	C00298728				control panel t-box ix 12v + cable		
004	C00298819				keyboard bracket flat-glass 90		
005	C00298186				complete halogen lamp 20w 12v		
005	C00298189				wiring for halogen lamp		
006	C00298820				metal grease filter		
007	C00298818				2 halogen lights trim flat glass 2h		
008	C00094977				screw ac tcb m4x16		
008	C00298822				bush fixing glass flat-curved		
008	C00298833				glass crist. t-box flat glass 60		
009	C00298756				wiring guide 307mm t_box		
010	C00298735			1 x C00308181	carbon filter 27x24 box
