INDESIT company

Model type:
PH741RQOGH

Commercial code:
F029498

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

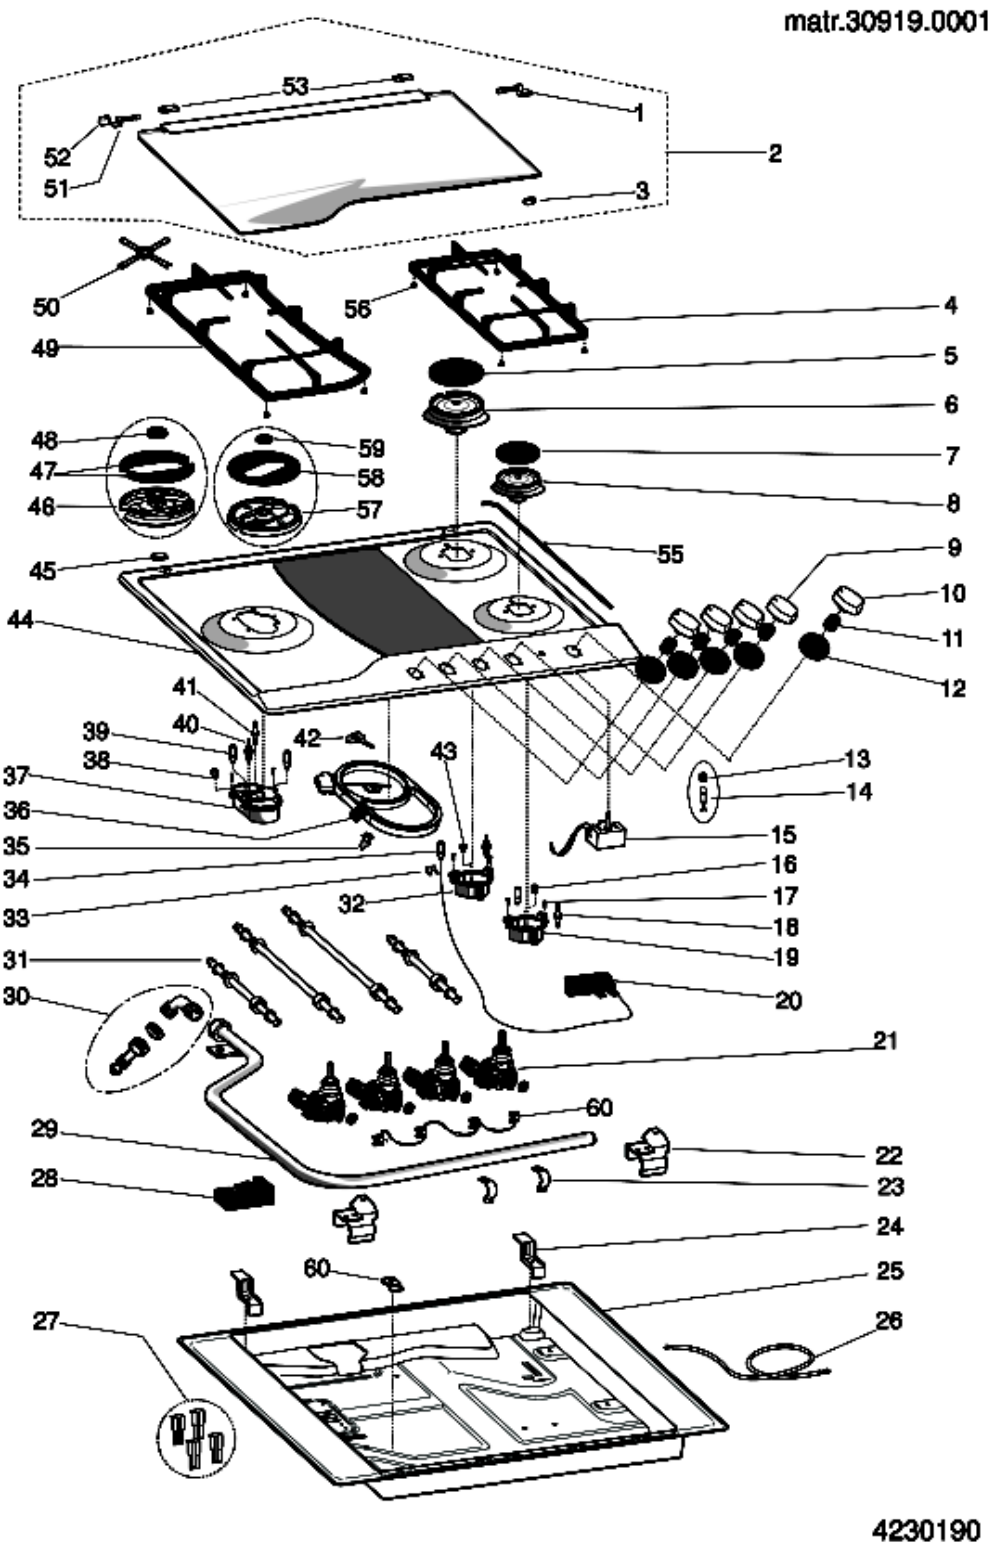

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

n1015104: INTRODUCTION OF NEW DCDR BURNER (RAF)

From serial no. 50613.0001, a new double crown burner has been introduced, whose components are not interchangeable separately with the premodification items.

New codes:

- C00119720 = burner cup
- C00119726 = burner
- C00119929 = RAF outer cap
- C00119930 = RAF inner cap
- C00021030 = injector D=110 - METHANE
- C00119935 = injector D=74 - METHANE
- C00119955 = injector D=165 - GZ35 (where applicable)
- C00119956 = injector D=102 - GZ35 (where applicable)

Premodification codes:

- C00084063 = burner cup
- C00084061 = burner
- C00084059 = outer ring
- C00084058 = inner ring
- C00018091 = injector D= 14 - METHANE
- C00033835 = injector D=70 - METHANE
- C00037286 = injector D=163 - GZ35 (where applicable)
- C00052941 = injector D=96 - GZ35 (where applicable)

There are new instruction manuals, which indicate all usable injectors with "NEW DCDR" in the spare part list.

Given below is the list of products/industrial codes (equal or higher) affected:

03348340100 GE760RX
03353420100 PZ760RF(IX)U
03294570200 PH750RTGH

n1015117: INTRODUCTION OF COPRECI GAS VALVES ON PH741

From November 2005, PH741 cooktops have been equipped with new Copreci gas valves which replace the Sabaf ones.
The modification involved the introduction of new components that are not individually interchangeable with the premodification parts.

New parts:
C00111244 - DCDR gas valve (x1)
C00111240 - Semi-rapid/auxiliary burner gas valve (x3)
C00111239 - Gas valve anchor screws
C00111238 - Gas valve fixing clamp
C00111235 - Microswitch ignition ring
C00141867 - Assembly (4 microswitches)

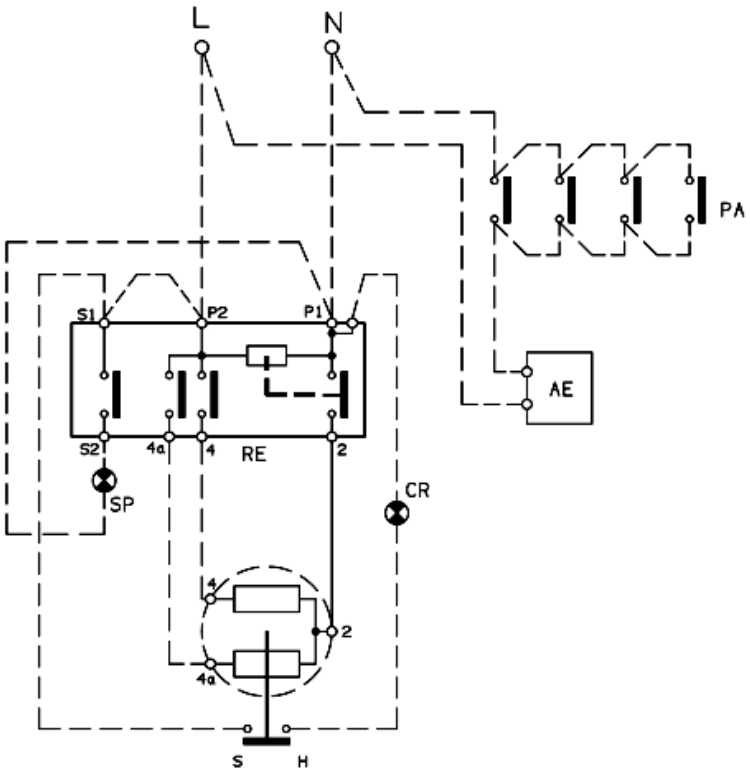

Premodification parts:
c00061967 - DCDR gas valve (x1)
c00063699 - Semi-rapid/auxiliary burner gas valve (x3)
c00064912 - Gas valve anchor screws
c00044592 - Gas valve fixing clamp

As a result of the new Copreci gas valves introduced, the industrial part code index has been updated. Given below is the list of products/industrial codes (equal or higher) affected by this modification:
03294990110 - PH741RQOGHU
03365330110 - PH741RQOGHAUS
03294980110 - PH741RQOGH
