INDESIT company

Model type:
BMBT2022IFHHA

Commercial code:
F053903

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

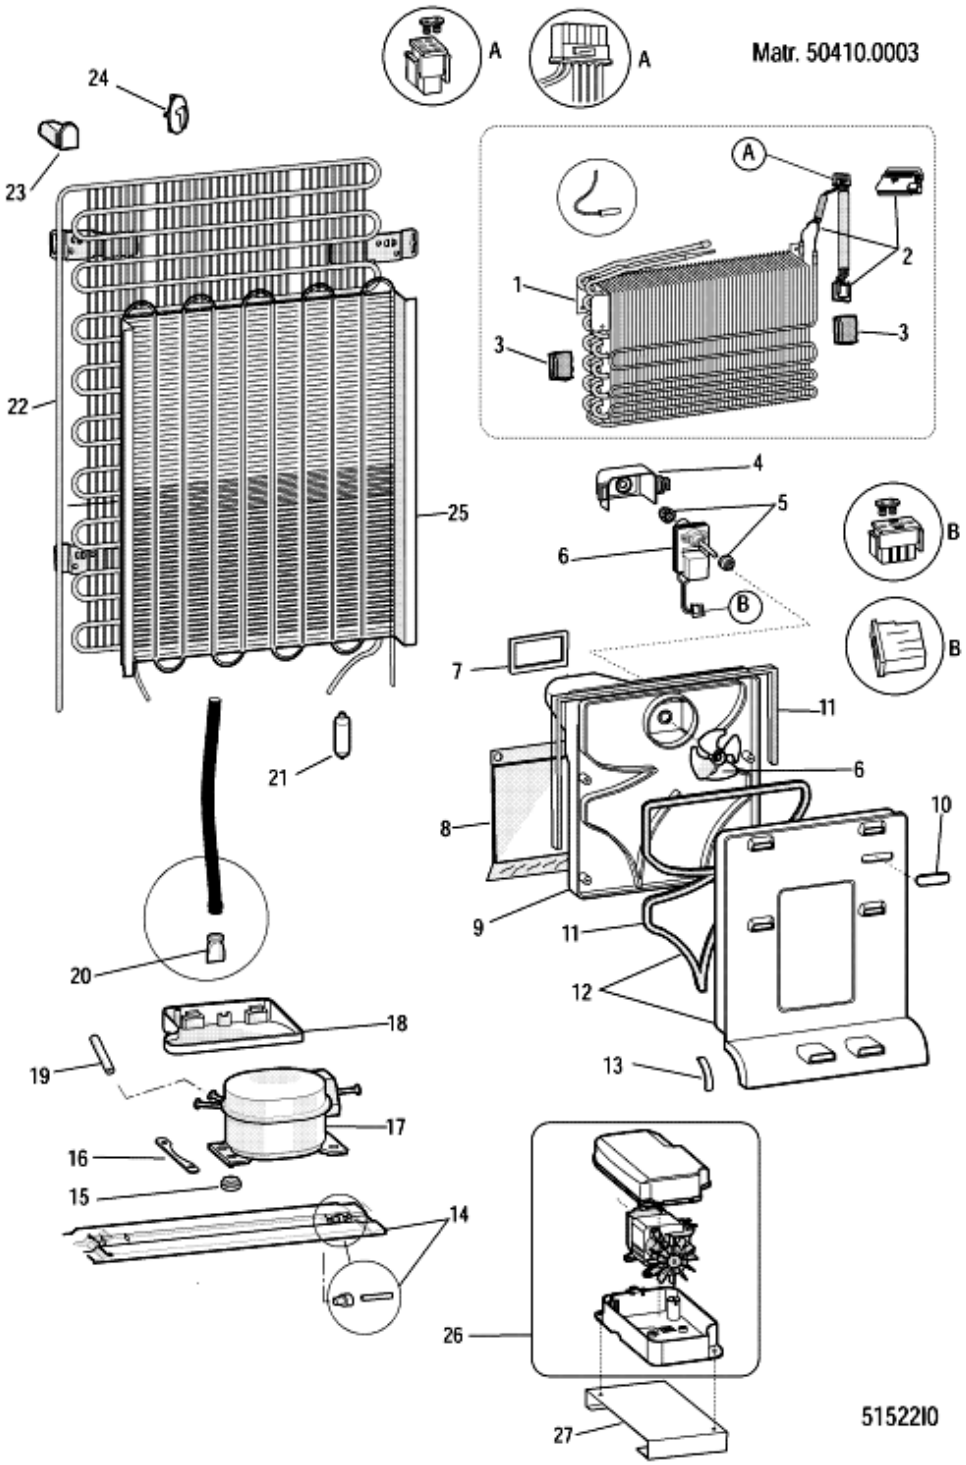

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

n1030097: No-frost combi 28 watt drip tray heating element (width 60) Ariston - Indesit

---

In the event of breakage of the heating element utilised on the appliance for defrosting of the drip tray, use the 28 watt heating element (C00140585) and cable supplied as replacement parts.
For the use of these parts refer to the Technical Bulletin "TB001007" (ex STN - CL 0602.2) sheet entitled: "Broken drip tray heating element Platform 2005 NF W60"

n3009a02: CHANGE WIRING J13 DISPLAY-MODULE

WIRING CHANGE - J13 DISPLAY-MODULE
From S/N 80628… on combis with MID display, from Lodz production, the wiring foamed in the door has changed affecting the

way J13 wiring connects from the door display to the cabinet. The wiring modification affects the connection in the upper header of the door where it connects to the cabinet harness. Service doors will only be managed with the new foamed in wiring, whilst the cabinet to door harness connecting J13 wirings will continue to be managed pre-modification and post-modification.
When selecting the Fridge Door, depending on the serial number, the POST modified cabinet to door harness J13 wiring will also be required. Managed as following:
DOOR REPLACEMENT
PRE-MODIFICATION MODELS:
Select both the fridge door from the parts list and POST modified cabinet to door harness J13 wiring C00145111.
POST-MODIFICATION MODELS:
Select the fridge door from the parts list only.
CABINET to DOOR HARNESS
The PRE & POST modified J13 cabinet to door harness are available separately:
PRE-MODIFICATION:
Select J13 wiring C00193446 or C00141145 from the parts list.
POST-MODIFICATION:
Select J13 wiring C00145111 from the parts list.
NOTE: once stock of C00193446 has depleted it will substitute to C00141145

SUBSTITUTION of IRIDIUM DOORS to INOX VERSION
From S/N 00215… from Lodz production IRIDIUM doors has been replaced with INOX version.
Only spare parts of INOX doors will be available, so it will be necessary to replace both doors for models with S/N To 00214.
The warehouse stock of IRIDIUM doors have depleted, the individual part numbers will substitute automatically to a kit of both fridge & freezer INOX doors

n3009l01: MODULE IS CHANGED

NEW MODULE IS INTERCHANGEABLE WITH OLD VERSION, AT END OF STOCK WILL BE MANAGED LAST VERSION

n3010k01: FRIDGE SHELF SUBSTITUTION

Starting from S/N 00725... has been inserted a new glass shelf assembly made by following codes:

C00114616
C00143031
C00114618

old assembly is mantained, but in quantity 2 instead of 3 and it is made by following codes:

C00143029
C00119040
C00119041

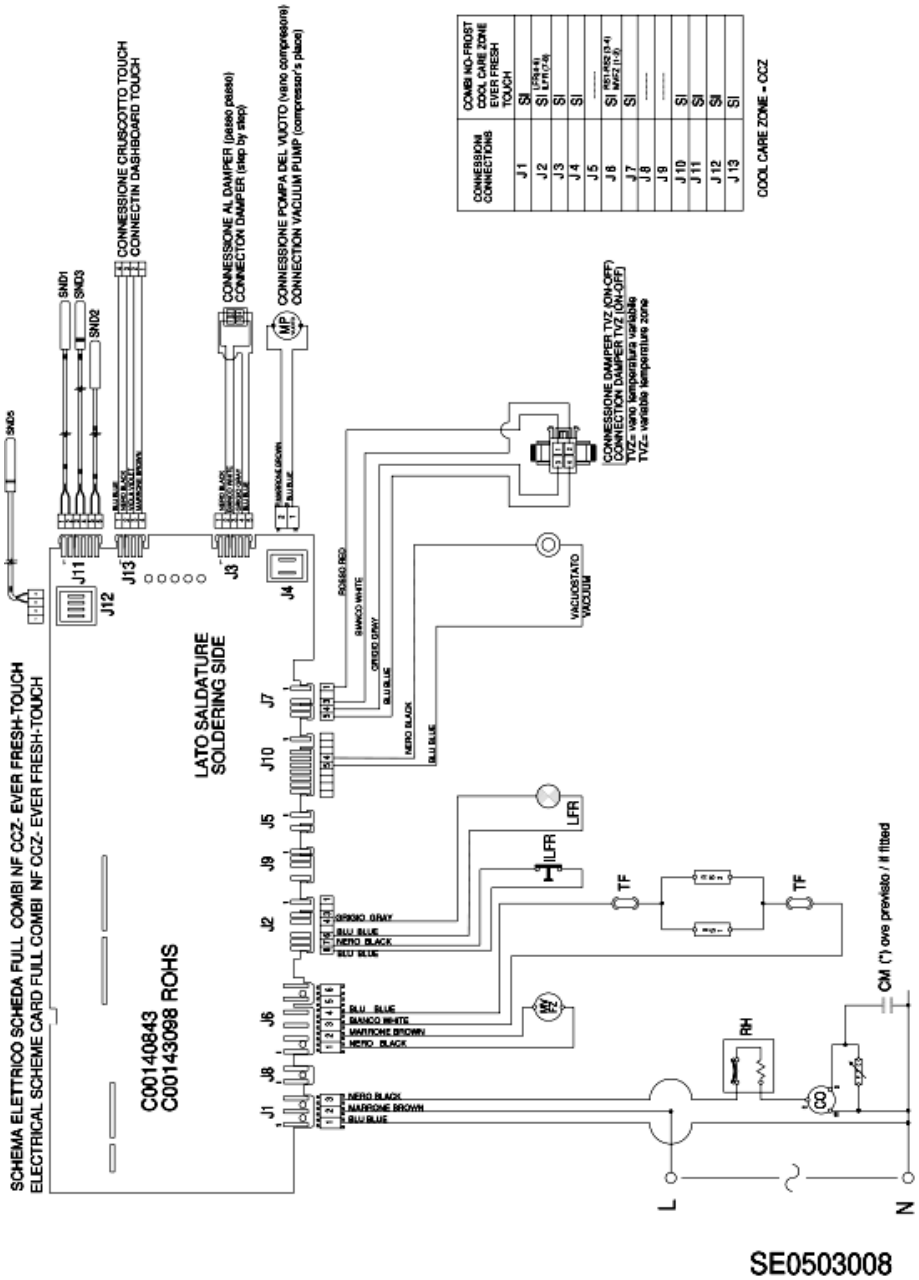

n3011c03: ELIMINATION COVER FOR UPPER DOOR SHELF

Cover for upper door shelf has been eliminated. The upper door shelf has been standardized with the middle one.

n3012b00: EGGS HOLDER ELIMINATED
