INDESIT company

Model type:
UP1712FHA

Commercial code:
F052359

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

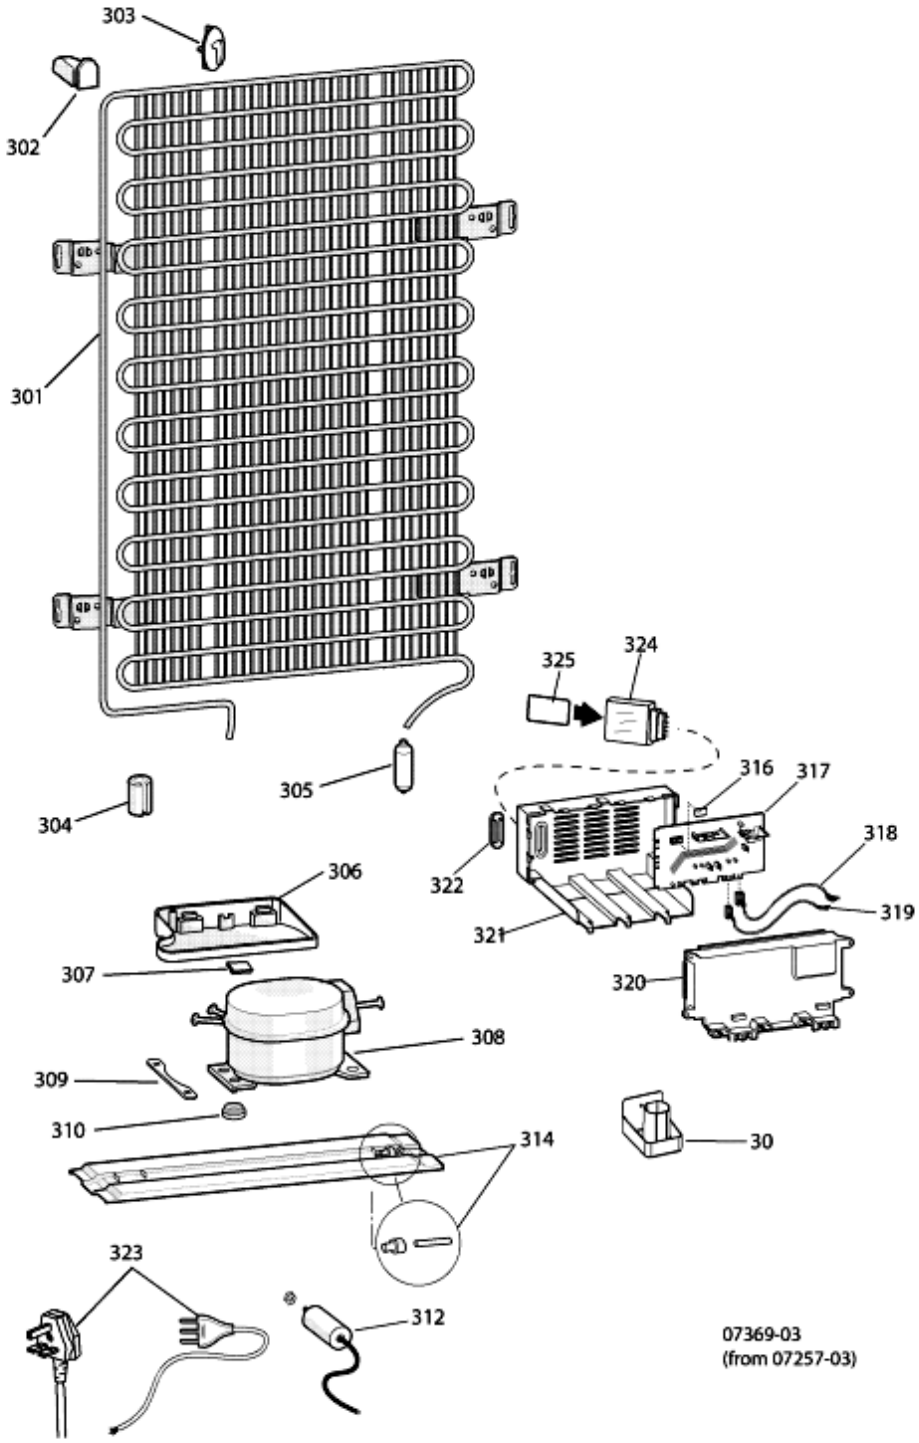

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

n2508g00: GRAB HANDLE FIXING SCREWS & WASHERS

Wherever a grab handle is to be replaced; new screws and washers as listed in the parts list should also be fitted.

n3008a04: ES VARIANTS-PCB, PROG, C/PANEL, DAMPER & M/FLOW

A new design of Power board was introduced to existing single door above counter fridges and freezers in week 44 (29/10/07) Serial No. commencing 71029. Similarly, to combo's in week 1 2008 (02/01/2008).
The new board is mounted at the top behind the facia control panel rather than rear mounted, as previously.
It is supplied UNPROGRAMMED, and does NOT have a replaceable EEPROM. It also requires requires special equipment to programme it.
The control panel has also been updated to accept the the new larger power board, as have the multiflow and damper arrangement.

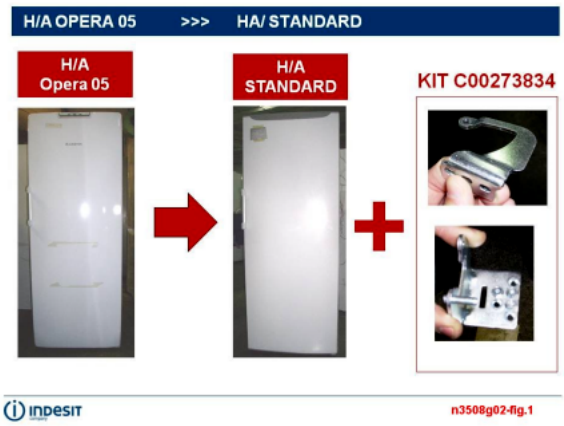

Apart from visually inspecting the appliance; the only way to know which power board is fitted, refer to the rating plate for the serial number. i.e. Before and after serial numbers 71029 & 80102.

There is no change to the model number or commercial code.....

n3009i00: CHANGE DOOR

DOORS - OLD Aesthetic DOORS are NO LONGER AVAILABLE for the above models.
A NEW Aesthetic DOOR is available and is inter-changeable with the OLD Aesthetic MODELS mentioned above.
NOTE: A DOOR COVERSION KIT C00273834 will be required if this door is to be fitted to an OLD Aesthetic model.
The DOOR CONVERSION KIT consists of the following:
2x Hinge Pin Cover Grey (Argento)
2x Hinge Pin Cover Silver (Argento Vivo)
2x Hinge Pin Cover Stainless Steel (Inox)
1x Hinge Bush
1x Cover Strip

1x Grab Handle (3 Fix Grey & Silver)
3x Grab Handle screw
3x Grab Handle washer
1x Closure Aid (L/H)
1x Lower Hinge Pin
1x Lower Hinge
1x Upper Hinge Screw
1x Upper Hinge
1x Lower Hinge Fixing Plate.
The logo/badge is not included. Therefore, when requesting a replacement door for this appliance you should also request a new logo/badge.
DISCLAIMER: The part supplied may differ from the original in colour, form or content, but is considered to be an acceptable interchangeable alternative. In accordance with its policy of progressive product design and environmental protection, Indesit Company reserves the right to alter specifications and use quality recycled components.

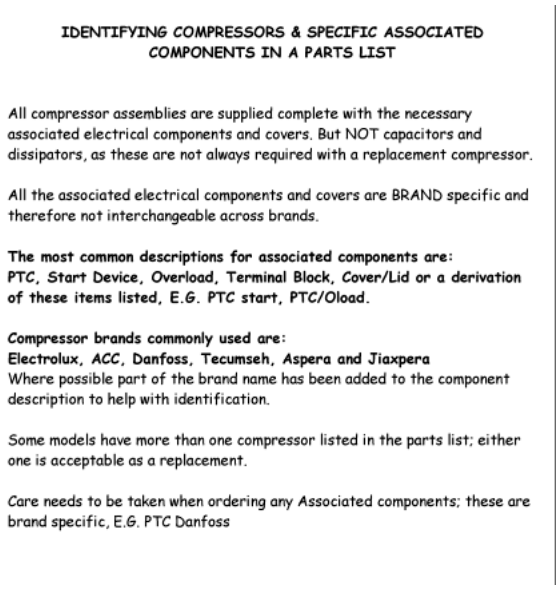

n3508a02: INTRO ES MODELS - NEW PCB, PROG & C/PANEL

A new design of Power board was introduced to existing models in week 44 (29/10/07) Serial No. commencing 71029. The new board is mounted at the top behind the facia control panel rather than rear mounted, as previously.
It is supplied UNPROGRAMMED, it also, does not have a replaceable EEPROM and requires special equipment to programme it.
The control panel has also been updated to locate the the new larger power board.

Apart from visually inspecting the appliance; the only way to know which power board is fitted, refer to the rating plate for the serial number. i.e. Before and after serial number 71029.

There is no change to the model number or commercial code.....

n3508a03: IDENTIFYING COMPS & SPECIFIC PARTS IN PARTS LIST

IDENTIFYING COMPRESSORS & SPECIFIC ASSOCIATED COMPONENTS IN A PARTS LIST

All compressor assemblies are supplied complete with the necessary associated electrical components and covers. But NOT capacitors and dissipators, as these are not always required with a replacement compressor.

All the associated electrical components and covers are BRAND specific and therefore not interchangeable across brands.

The most common descriptions for associated components are:
PTC, Start Device, Overload, Terminal Block, Cover/Lid or a derivation of these items listed, E.G. PTC start, PTC/Oload.

Compressor brands commonly used are:
Electrolux, ACC, Danfoss, Tecumseh, Aspera and Jiaxpera
Where possible part of the brand name has been added to the component description to help with identification.

Some models have more than one compressor listed in the parts list; either one is acceptable as a replacement.

Care needs to be taken when ordering any Associated components; these are brand specific, E.G. PTC Danfoss

n3508e01: EVAPORATOR ASSY ELECTRIC CONNECTIONS CHANGE

The electrical components supplied as part of the evaporator assemblies have changed. The connections for the defrost heater and thermal fuse assy have changed from Pin and Socket to Spade Recepticle. THE EVAPORATOR ASSEMBLIES ARE NOT INTER-CHANGEABLE....CHECK BEFORE ORDERING. The approximate date of change was 21/04/2008.

n3508f00: POWER MODULE ROhS NON-PROGRAMMED & SMARTCARD

---

n3508g02: DOOR CHANGE - INTRO NEW GRAB HANDLE (3 SCREWS)

To Identify the correct parts refer to the Image in Partfinder and/or Service Net showing both the OLD & NEW Aesthetic Doors.
GRAB HANDLES -
MODELS with OLD Aesthetics - BEFORE SERIAL NUMBER COMMENCING 80712…. (12 July 2008) The grab handle used with this door has 2 screw fixings; 2 washers were introduced later (listed in the parts list). Where it is necessary to replace this type of grab handle, 2 screws and 2 washers should also be ordered and fitted. The handles for models FZ175P, FZ150P, RZ150P, UP1521, UP1511, UP1511F, UP1511FHA, UP1711FHA, UP1746HA, UP1711HA, UP1511HA(TK) are now available in a complete silver colour (Argento Vivo) rather than white with a silver bar. When stock of this Grab Handle becomes depleted a NEW Aesthetic DOOR & DOOR CONVERSION KIT will be required.
MODELS with OLD Aesthetics - AFTER SERIAL NUMBER COMMENCING 80713…. (13 July 2008) The grab handle used with this door has 3 screw fixings, compared to the original mentioned above, which has only 2. This handle is a seal break handle and is NOT inter-changeable with the previous handle or door
DOORS -

POWER MODULE ROHS NON-PROGRAMMED & SMARTCARD

PRIVATE & TRADE CUSTOMERS ONLY

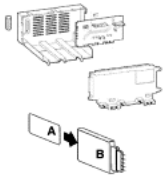

A new design of Power module was introduced to existing models commencing Serial No. commencing 71029.... The new module is mounted at the top behind the facia control panel rather than rear mounted, as previously. The power module is supplied **UNPROGRAMMED,** requiring a Smartcard and special equipment to programme it.

To identify which power module is fitted, refer to the rating plate for the serial number. i.e. before and from serial number 71029.... NOTE: The control panel mounted power module was introduced to a small number of models prior to serial number 71029.... Therefore in some instances a visual inspection for the location of the module will be necessary to identify the type fitted.

To select the correct Smartcard/Eeprom from the parts list, ensure you are viewing the correct image associated with the relevant power module.

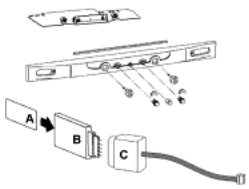

NOTE: The programmed Eeprom from the parts list can **ONLY** be used on the Rear Mounted Power Module. When the programmed Eeprom is not longer available, It will be necessary to programme the power module using the relevant Smartcard and special equipment listed. It will also be **NO** longer necessary to insert a separate Eeprom whenever an Eeprom socket is encountered on an existing module when using the Smartcard.

REAR MOUNTED POWER MODULE

SPECIAL EQUIPMENT REQUIRED
Programmed Eeprom
OR
A = Smartcard (can only be used **ONCE**).
B = Smartcard Reader (is **RE-USABLE**).

CONTROL PANEL MOUNTED POWER MODULE - ES

SPECIAL EQUIPMENT REQUIRED
A = Smartcard (can only be used **ONCE**).
B = Smartcard Reader (is **RE-USABLE**).
C = Low End Adaptor Version 2007 (is **RE-USABLE**).

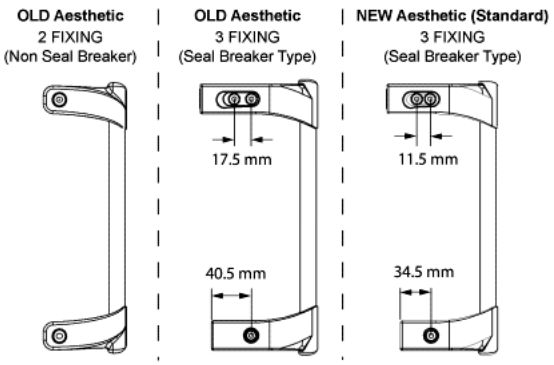

INDESIT COMPANY Palm/PC-EMIT USERS ONLY

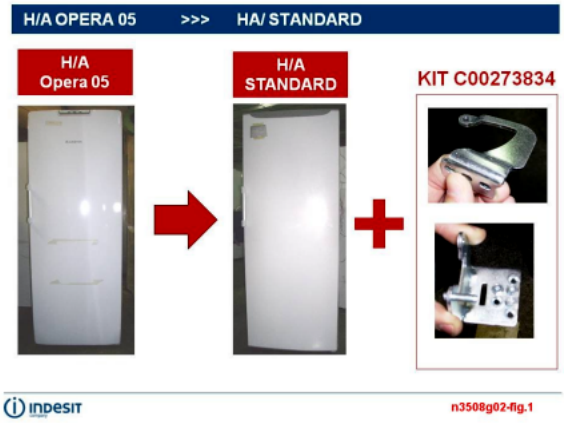

In order to locate the correct programme file on your Palm/PC-EMIT it will be necessary to search under the part number of the Smartcard associated with the relevant power module in the parts list. The Low End Adaptor **version 2007** will also be required to programme the Control Panel Mounted Power Module - ES.

NOTE: It is **NO** longer necessary to insert a blank Eeprom before programming a New Platform power module having a vacant Eeprom socket.

OLD Aesthetic DOORS are NO LONGER AVAILABLE for the above models. A NEW Aesthetic DOOR is available and is inter-changeable with the OLD Aesthetic MODELS mentioned above. NOTE: A DOOR CONVERSION KIT C00273834 will be required if this door is to be fitted to an OLD Aesthetic model. The DOOR CONVERSION KIT consists of the following: 2x Hinge Pin Cover Grey (Argento), 2x Hinge Pin Cover Silver (Argento Vivo), 2x Hinge Pin Cover Stainless Steel (Inox), 1x Hinge Bush, 1x Cover Strip, 1x Grab Handle (3 Fix Grey & Silver), 3x Grab Handle screw, 3x Grab Handle washer, 1x Closure Aid (L/H), 1x Lower Hinge Pin, 1x Lower Hinge, 1x Upper Hinge screw, 1x Upper Hinge, 1x Lower Hinge Fixing Plate. The logo/badge is not included. Therefore, when requesting a replacement door for this appliance you should also request a new logo/badge.
3 fixing hole type GRAB HANDLE SHOULD NOT BE USED ON DOORS/MODELS PRODUCED BEFORE serial number 80712…., UNLESS IT HAS THE NEW Aesthetic DOOR ALREADY FITTED.
DISCLAIMER: The part supplied may differ from the original in colour, form or content, but is considered to be an acceptable interchangeable alternative. In accordance with its policy of progressive product design and environmental protection, Indesit Company reserves the right to alter specifications and use quality recycled components.

GRAB HANDLE IDENTIFICATION

n3509b01: DRIP TRAY / GUTTER HEATER I/D

Due to a change of heater terminations is important to identify which electrical terminations are used on the product.

The complete Drip Tray assembly is available for models produced FROM S/N commencing 80421. However, stock is limited and will be superseded to the heater and aluminium tray eventually.

The complete Drip Tray is NOT available for appliances produced BEFORE S/N commencing 80421. However the parts to repair the tray are available and are as listed.

Whenever a drip tray is dismantled the foam tape, sponge and foil tape areas should also be checked and repaired or replaced as necessary. They are listed in the parts list.

n3509g02: DOOR CHANGES - NEW AESTHETICS

To identify the correct part refer to the image in PARTFINDER and/or SERVICE NET.
The image is split showing NEW & OLD Aesthetic doors with their unique reference number against each part.
To further help identify which door and/or related part is fitted:
OLD Aesthetic doors will sit flush with the height of its cabinet and may also have 3 LED lenses in the upper door trim.
NEW Aesthetic doors will protrude higher by approximately 100mm from its cabinet and have NO LED lenses in the upper door trim.

n3509h00: DOOR CONVERSION KIT - FREEZERS

To Identify the correct parts refer to the Image in Partfinder and/or Service Net showing both the OLD & NEW Aesthetic Doors.
The doors being supplied are of the new aesthetic type and may require a conversion kit.
The conversion kit is only required if you are changing from old aesthetic to new aesthetic doors.
