INDESIT company

Model type:
CHNAA300M

Commercial code:
F079285

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

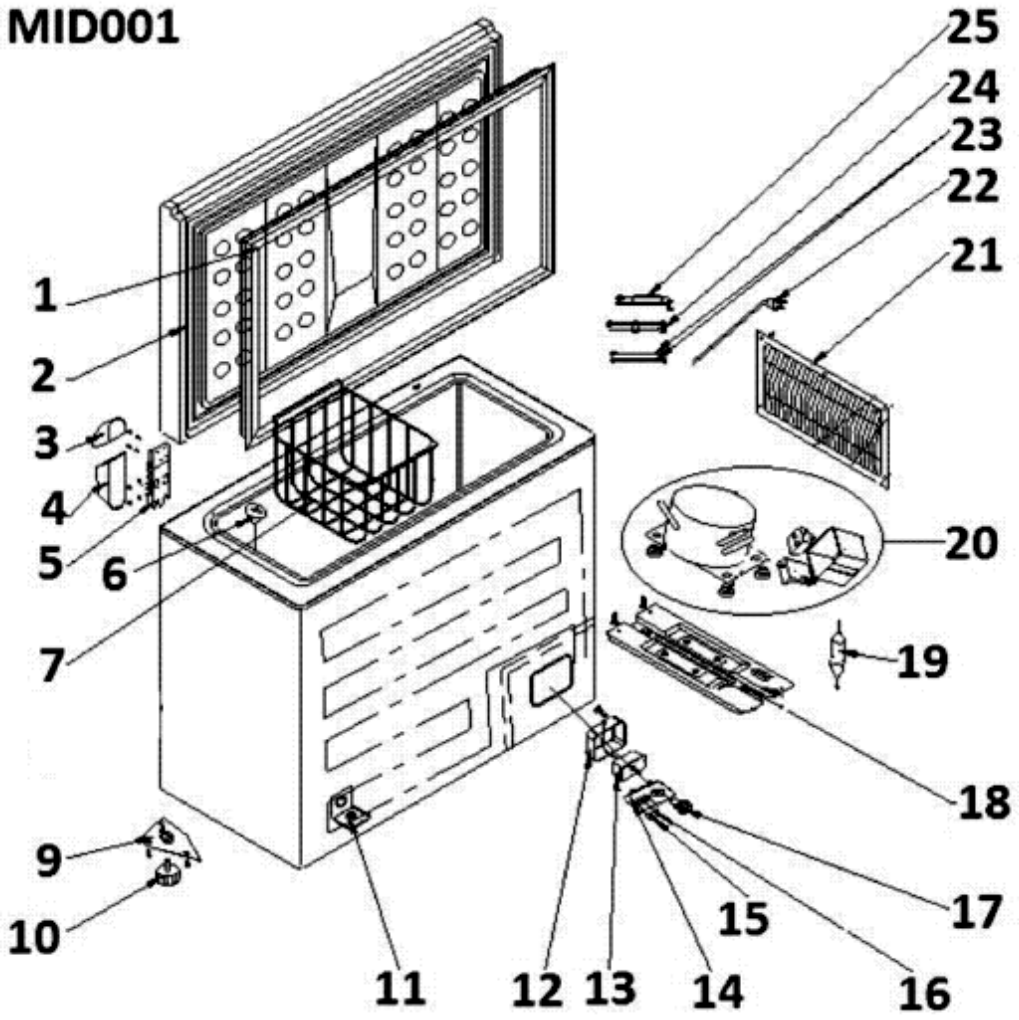

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

MID001 Exploded views

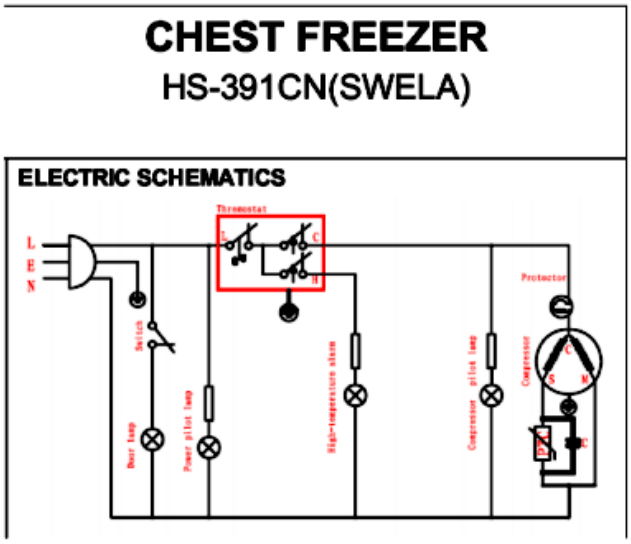

MID001 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00292995				door gasket		
002	C00292996				insulated freezer door ##		
002	C00293235				handle freezer door		
003	C00281886				cover plate (upper-hinge)		
004	C00281888				hinge cover inferior		
005	C00281935				hinge		
006	C00281955				plug		
007	C00292987				basket		
009	C00292959				support adjustable back foot		
010	C00292960				adjustable foot		
011	C00292961				water drainage plug		
012	C00292997				thermostat box		
013	C00281889				thermostat		
014	C00292965				control panel serigraphy hotpoint		
015	C00292966				lamp led power-green		
016	C00292967				lamp led running		
017	C00292969				thermostat knob		
018	C00292988				compressor transverse		
019	C00292971				filter		
020	C00292998				compressor assembly qy97c45u		
021	C00292990				freezer shutter		
022	C00292991				power supply cord with plug		
023	C00292976				wiring terra		
023	C00292977				wiring terra		
025	C00292992				compressor harness		
099	C00293188				lamp bulb		
999	C00295614				lamp holder
