INDESIT company

Model type:
TQ740ES(OP)

Commercial code:
F032840

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

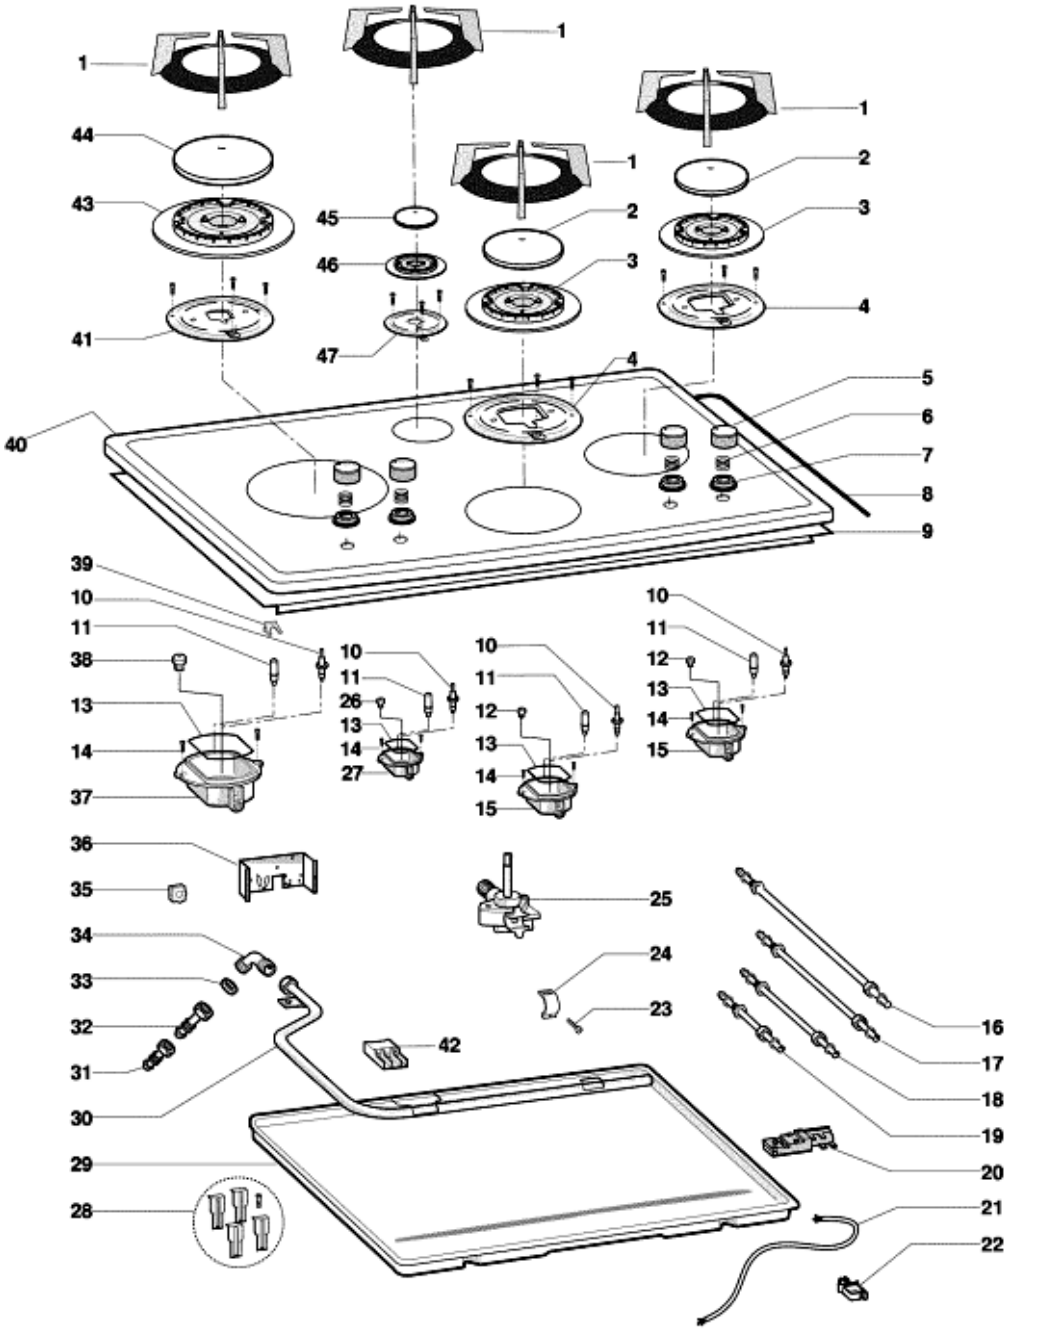

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

Notices

n1015141: INTRODUCTION OF COPRECI GAS COCKS + ASSEMBLY ON GLASS HOBS

The hobs to which this note refers have been fitted with new Copreci gas cocks in place of the Sabaf cocks.
The modification involved the introduction of new components that are not individually interchangeable with the premodification parts.

New parts:

C00111240 - cock auxiliary/semirapid (x3)
C00111241 - cock for rapid (x1)
C00111235 - microswitch activation ring
C00143913 - assembly (4 microswitches)
C00111238 - cock fixing bracket

Premodification parts:

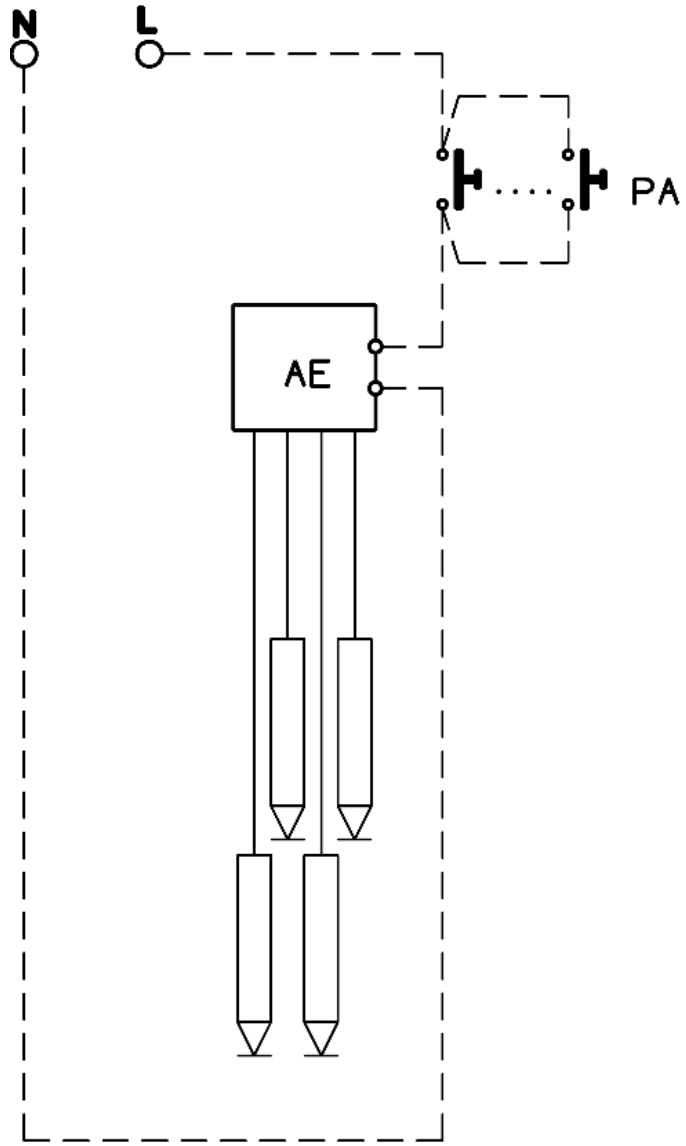

C00063699 - cock auxiliary/semirapid (x3)
C00063698 - cock for rapid (x1)
C00044592 - cock fixing bracket

Introduction of the new Copreci gas cocks also involved updating of the industrial part code index. Given below is the list of products/industrial part codes affected by this modification:

03337120200 - CISTD 640 ES (ICE)
03287960400 - TD 640 ES (BK)
03283240400 - TD 640 ES (CH)
03283260400 - TD 640 ES (GC)
03281430400 - TD 640 ES (ICE)
03281440400 - TD 640 ES (MR)
03283250400 - TD 640 ES (SL)
03288100400 - GD64I
03337550100 - GD64SK
03399310100 - GQ64SI
03384700100 - GQ64ST
03399320100 - GQ74SI
03328390100 - TQ 740 ES (GR)
03328400300 - TQ 740 ES (OP)
