INDESIT company

Model type:
OFNAA200M1

Commercial code:
F083773

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

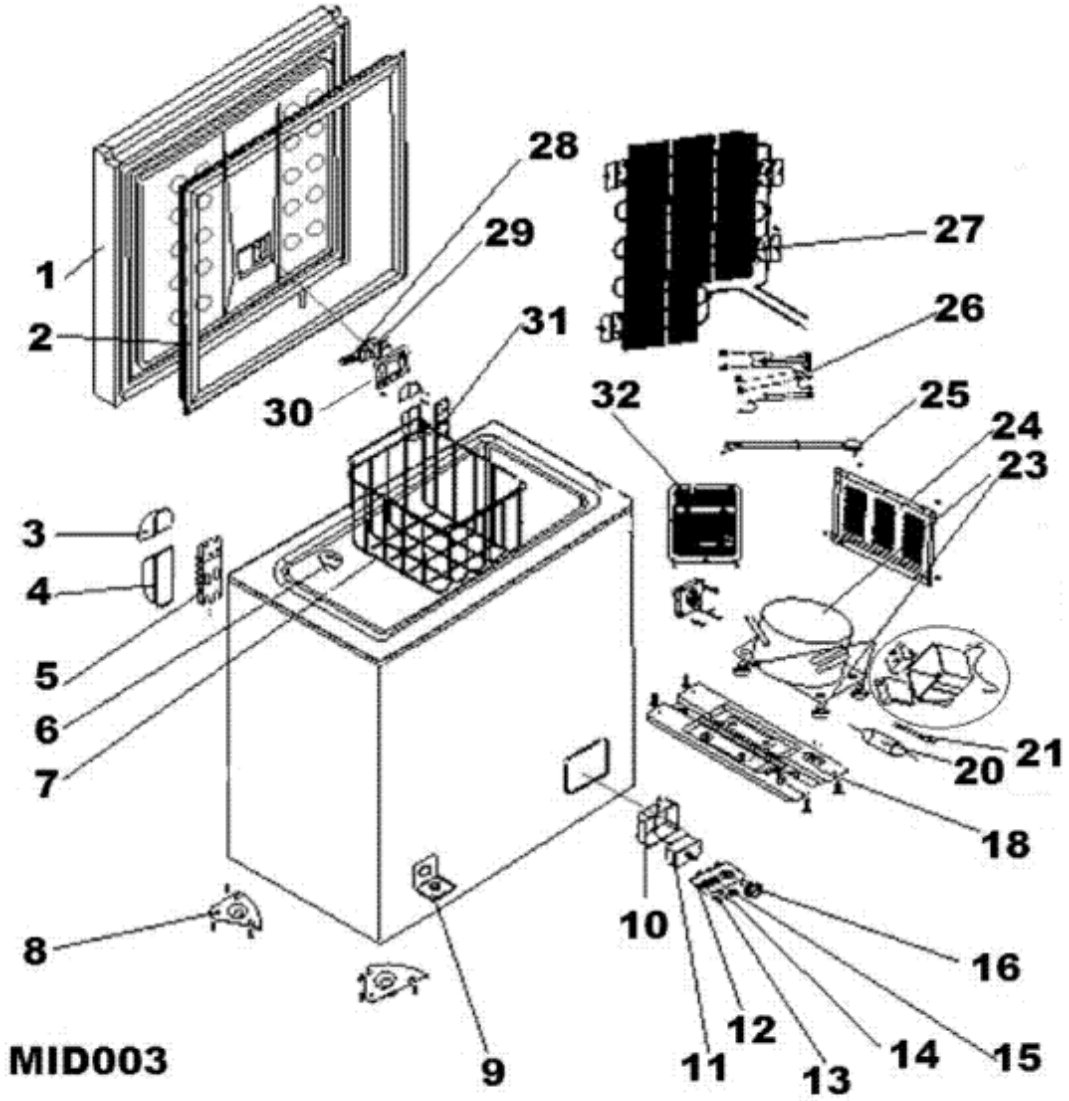

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

MID003 Exploded views

MID003 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
001	C00298701		30131...		freezer door assembly		
001	C00299874	30201...			freezer door assembly		
002	C00298702				door seal		
003	C00281886				cover plate (upper-hinge)		
004	C00281888				hinge cover inferior		
005	C00281935				hinge		
005	C00298703				screw		
006	C00281955				plug		
007	C00292987				basket		
008	C00298704				fixed plate		
009	C00297366				water drainage plug		
010	C00292997				thermostat box		
010	C00298708				screw		
011	C00298709				thermostat		
012	C00297118				control panel serigraphy indesit		
013	C00297102				lamp led power-green		
014	C00298710				light-blue		
015	C00298712				running led-yellow		
016	C00292969				thermostat knob		
018	C00292989				compressor assembly ##		
018	C00293298				compressor transverse		
018	C00298439				screw assembly, m4*8		
018	C00298713				screw		
020	C00292971				filter		
021	C00297367				compressor process tube		
021	C00297371				compressor suction transition tube		
024	C00293299				freezer shutter		
024	C00298483				screw		
024	C00298715				shutter		
024	C00298733				screw		
025	C00297373				power supply cord with plug		
026	C00297374				pilot lamp harness		
027	C00298717				screw		
028	C00293188				lamp bulb		
029	C00295614				lamp holder
