INDESIT company

Model type:

HDF90IX/HA

Commercial code:

F050152

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

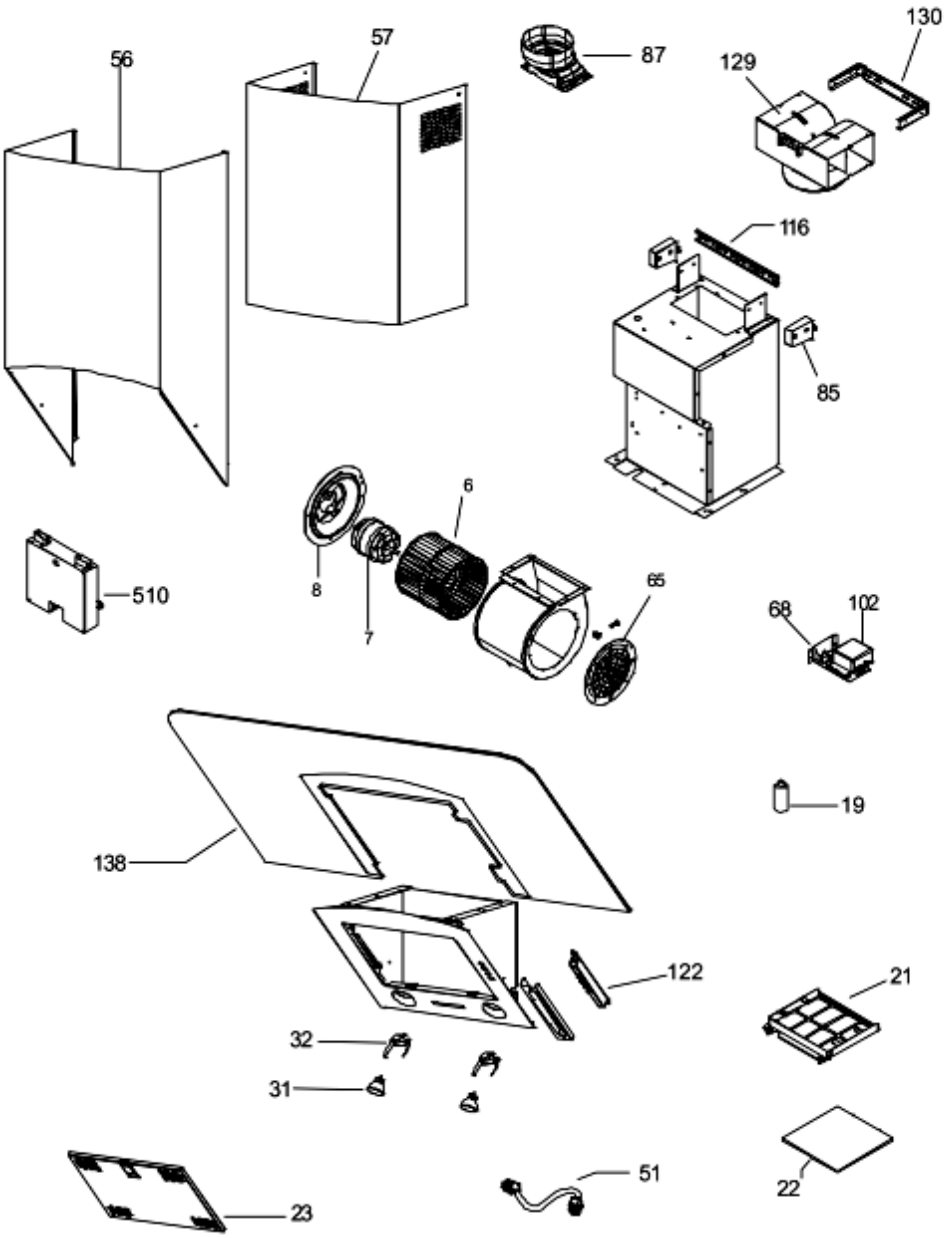

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

1787A Exploded views

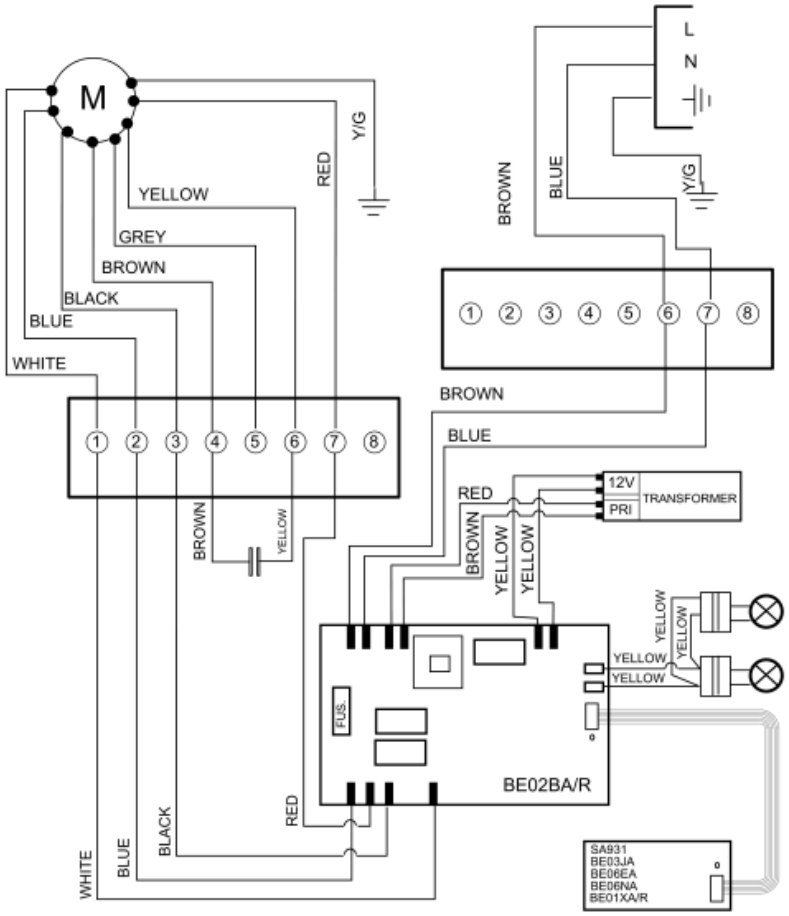

1787A Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
000	C00257933				instruction book		
006	C00090119				motor propeller		
007	C00096897				motor s80-35		
008	C00139285			1 x C00278471	motor support		
019	C00255895				condenser		
021	C00090190				carbon filter support		
022	C00138742				washable carbon filter		
023	C00096867				grease filter		
031	C00139909				lamp		
032	C00143641				lamp-holder		
051	C00262515				wiring		
056	C00117283				bottom chimney section		
057	C00117284				upper chimney section		
065	C00138717				suction compressor		
068	C00195758				connection block		
085	C00138719			1 x C00242931	fixing hook		
087	C00090198			1 x C00242755	drain coupling		
102	C00090189				cover connection block		
116	C00117280				hanger		
122	C00117231				control box		
130	C00096888				fixing square		
138	C00117265				shell##		
510	C00255896			1 x C00257455	assembled electronic module		
999	C00280238				assembling kit
