INDESIT company

Model type:

HD90.TIX/HA

Commercial code:

F057457

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

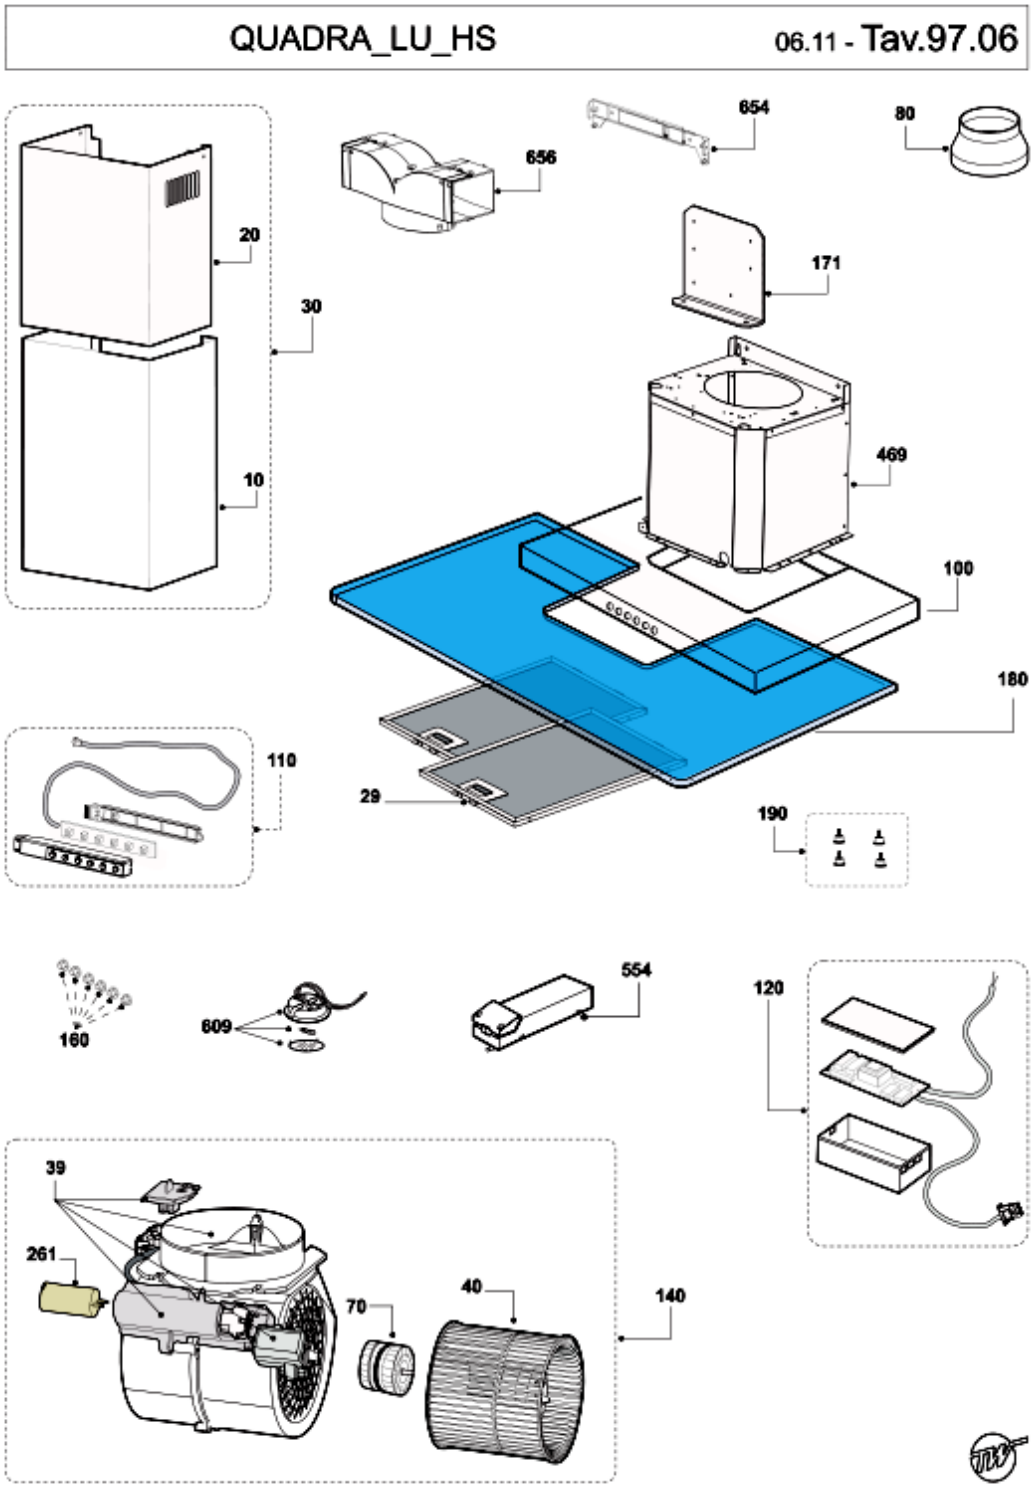

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

TAV_97-06 Exploded views

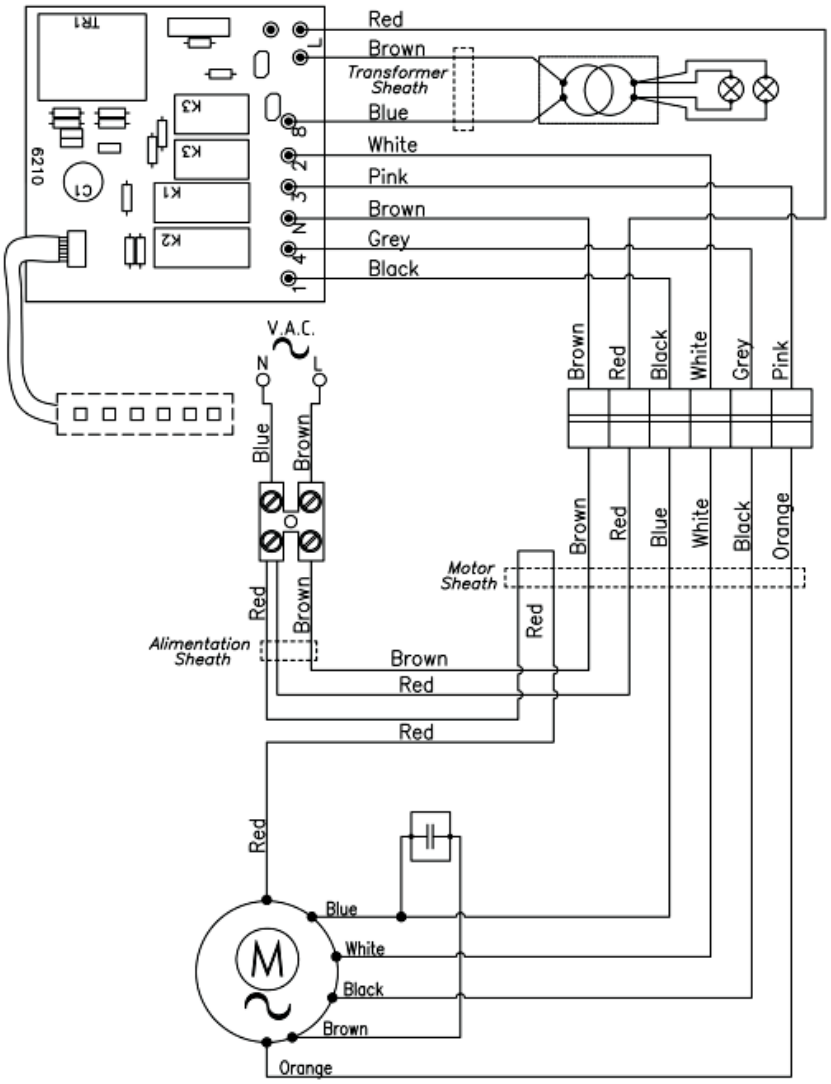

TAV_97-06 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
010	C00267321				chimney lower		
020	C00267325				chimney upper		
029	C00267446				filter stainless		
039	C00267328				conveyor		
040	C00267330				motor propeller		
080	C00279268				spigot adapter 150-120mm		
100	C00267447				casing assembly		
110	C00267448				control bracket		
120	C00267449				card power		
140	C00267346				motor		
160	C00267450				push-button board		
171	C00267451				fixing square		
180	C00267463				glass h00ds		
190	C00267454				assembling kit		
261	C00267349				condenser		
469	C00267313				support motor		
554	C00267314				transformer		
609	C00267352				halogen lamp		
654	C00267316				fixing bracket chimney		
656	C00267317				deviator air		
999	C00268402				carbon filters (2 parts)
