INDESIT company

Model type:

HES92FIX/HA

Commercial code:

F055094

General notes

Technical Documentation guidelines

You can find herewith some generic information to simplify cunsulting of technical documentation:

1. Models of same range share the same exploded views, which report the richest set of spare parts:generally, a model does not necessarly have a related spare part for each particular shown on exploded views.

2. Some spare parts can not be represented directly on the exploded views (instruction booklets, specific kit, etc...). You can find those codes in the spare parts list with the same reference of particular where spares are installed or with references 099, 999. Instruction booklets, once managed, appear with 000 reference.

3. On the higher right site of each exploded view there is a serial number which indicates the beginning of the production of certain range:some models might have more than an exploded view for a given category, each distinguished by a different serial no.and linked to another spare parts list, In this case, serial no. is required to supply the right spare part code. Exploded view to be considered is the one with a more recent serial no. but previous than the one of the model that needs assistance.

4.Exploded views might require further updates even after publishing. Addition of new spares will go on following the already existing numeration references. Revision number of an exploded view is shown into last four digits of serial number into upper right hand corner.

5.The spare parts list associated to an exploded view shows related codes of spares managed for a certain model; for each spare part other informations are available:

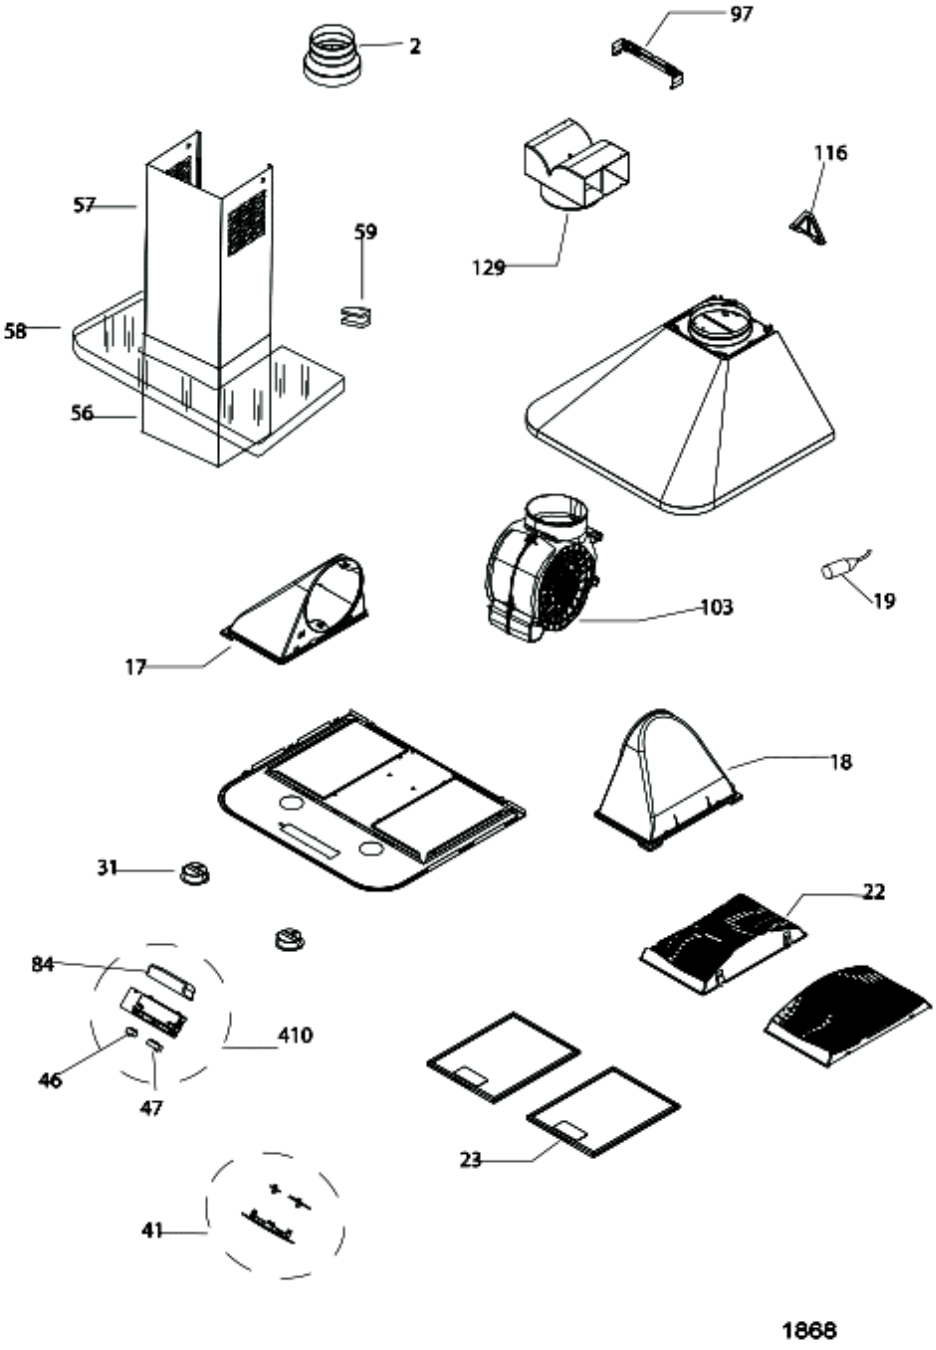

REF: reference no of spare into a table; SUBSTITUTE: list of spare(s) which can replace a code but that keeps same functional characteristics

INDUSTRIAL CODE: list of variables of a model (shown into model label) where such spare is used; NOTICE: code of information(s) to refer to complete technical intervention, track for changes or to find correct spare part code.

6. Some notices, into a same section are generic therefore cannot be directly linked to a spare part. In order to assist a model in the best way as possible, it is helpful to pay attention to all notices and constantly verify documentation updates

7.Technical documentation cover shows model name and its commercial codes

1868 Exploded views

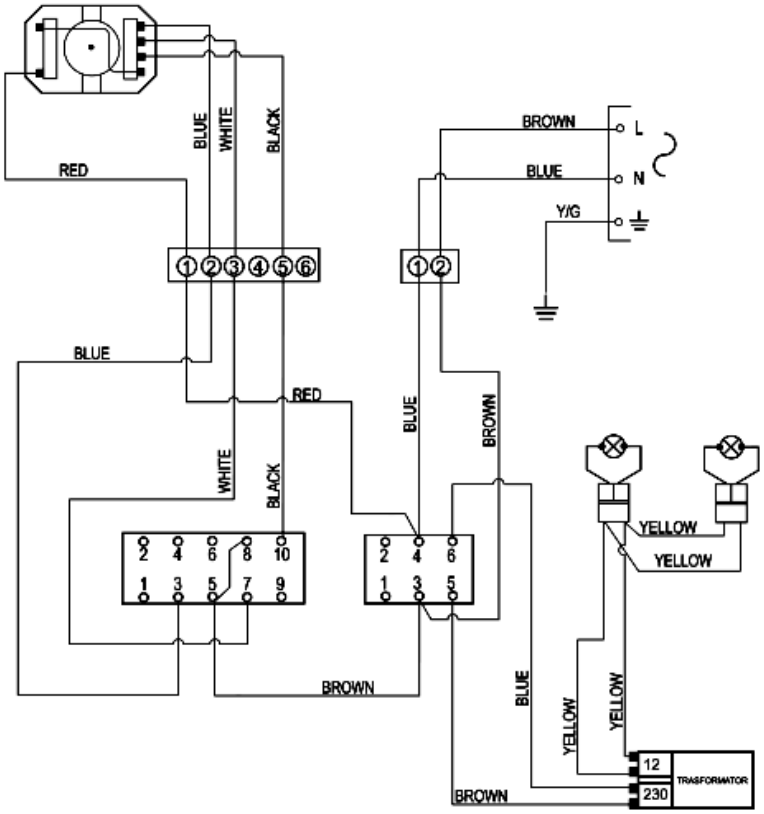

1868 Spare parts list

Ref.	Code	From	To S/N	Substitute	Description	Notice	Industrial
002	C00137578			1 x C00242863	pipe reduction (ix) 150/120mm		
017	C00143262				suction compressor left		
018	C00143261				suction compressor right		
022	C00142343			1 x C00094554	carbon filter qty 2		
023	C00136541			1 x C00280008	grease filter		
031	C00138617			1 x C00242926	complete halogen lamp		
041	C00264637				head control panel assembly		
046	C00135642				lamp switch		
047	C00135643				fan motor speed - switch		
056	C00264640				fixed part		
057	C00143267				chimney upper ix		
084	C00096871				transformer		
097	C00119481				support chimney lower		
103	C00264399				motor		
116	C00143269				hood securing brachet		
129	C00098448				filtering connection tamaya hp pp		
410	C00264400				command box		
519	C00264644				kit assembly + user book		
999	C00270840				wirring harness controls		
999	C00277743			1 x C00264644	kit assembly
